(J. P. or Comm.)

Where the applicant is unable to subscribe to the statements in paragraphs (a), (b) and (c) of this Declaration, he is not to be granted entry unless he produces special authority from the Soldier Settlement Board or the District Superintendent. Applicants who are unable to subscribe to paragraphs (a), (b) and (c) should, therefore, take their cases up with the District Superintendent of the Board, explaining on what grounds they are applying for special authority.

Sub-Section 2 of Section 15 of the Soldier Settlement Act, 1919, provides as follows:—

"Unless the Board shall, for special reasons, otherwise recommend, no such free grant shall be made to any settler who,—

- (a) has, pursuant to the provisions of this Act, purchased from the Board any land; or,
- (b) has, pursuant to the provisions of this or of the former Act, secured from the Board any advance of money for the clearing of encumbrances on, or the purchase of, or the improvement of, any land; or,
- (c) is owner of, or has a vested, possessory interest in agricultural land of such area as, in the opinion of the Board, constitutes an average farm for the district within which the land is situated, or which in the opinion of the Board, is of the value of five thousand dollars."

If the settler is unable to subscribe to the statements in paragraphs marked (a), (b) and (c) of the Declaration, he is not to be granted entry unless specially recommended by the Board.

With respect to the information called for in paragraphs (d) and (e) of the Declaration, the Soldier Settlement Board considers that as a rule a farm of 320 acres may be considered an average farm for the western provinces for the purposes of section 15 of the Act. If, therefore, from the information furnished by the settler, it appears that he is owner of, or has vested, possessory interest in agricultural land of an area amounting to a half section (320 acres more or less) the settler's application is not to be entertained, unless he has been specially recommended for entry by the Board.

If the applicant is owner of, or has vested, possessory interest in agricultural land the value of which is \$5,000, he should be deemed disqualified unless he has been specially recommended by the Board. The present selling value of the land is to be accepted as its value for the purposes of the affidavit.

For the purposes of Section 15 of the Act, land owned by the husband or wife of the applicant is deemed to be owned by the applicant.

DOMINION LANDS ADMINISTRATION

Copy to A.D.L. Grande Prairie.

16th July, 1930.

Sir,

Re S.W. 1 21-75-10-A.6th M.  
Homestead.

S.W. 1 21-75-10-A.6th M.  
Soldier grant.

I have your letter of the 28th June last, wherein you express a desire to abandon the entries for your homestead and soldier grant, presumably with the intention of locating other land elsewhere.

In this connection I beg to say as title to the Natural Resources of Alberta will become vested in the province on the 1st August next, after which date the administration of Crown lands will be undertaken by the Provincial Government, the time at your disposal is insufficient for completion of the transaction of abandonment: the obtaining of authority to re-enter, and the selection of other land elsewhere.

However, if you still wish to abandon your entries on the understanding that you may lose the right to re-enter under Provincial Statutes, you should have the enclosed forms of declaration of abandonment properly filled in and executed before a Justice of the Peace, Notary Public or Commissioner, and forwarded to the Agent of Dominion Lands at Grande Prairie for acceptance and transmission here when the necessary further action will be taken.

Encl.

Your obedient servant,

Commissioner of Dominion Lands.

Harry Strachan, Esq.,

as follows:

- (a) That I have not purchased any land from the Soldier Settlement Board under the provisions of the Soldier Settlement Legislation.
- (b) That I have not pursuant to the provisions of the Soldier Settlement Legislation, secured from the Board any advance of money for the clearing of encumbrances on, or the purchase of, or the improvement of, any land;
- (c) That I have no application at present pending to purchase any land from the Board or to secure advances from it for the purposes mentioned in paragraph (b) hereof;
- (d) That I am not an owner of, nor have I a vested, possessory interest in, agricultural land except the following:

DESCRIPTION					Area	Assessed Value	Present Standing Value
1 Sec	1p	R1	W	Met			
1 Sec	1p	R2	W	Met			

Area, assessed value and present standing value of each parcel of land owned.

- (e) That my *Harry Strachan* is not an owner of, nor has *Harry Strachan* a vested, possessory interest in, agricultural land except the following:

DESCRIPTION					Area	Assessed Value	Present Standing Value
1 Sec	1p	R1	W	Met			
1 Sec	1p	R2	W	Met			

Area, assessed value and present standing value of each parcel of land owned.

AND I make this solemn declaration conscientiously believing the same to be true and knowing that the same is of the same force and effect as if made under oath and in virtue of the Canada Evidence Act.

DECLARED before me:

*Harry Strachan*  
*Premier of British Columbia*  
GIVEN *5th* day of *July* 19*29*  
*Harry Strachan*  
P. or Comm.

Where the applicant is unable to subscribe to the statements in paragraphs (a), (b) and (c) of this Declaration, he is not to be granted entry unless he produces special authority from the Soldier Settlement Board or the District Superintendent. Applicants who are unable to subscribe to paragraphs (a), (b) and (c) should, therefore, take them on up with the District Superintendent of the Board, explaining on what grounds they are applying for special authority.

Sub Section 2 of Section 15 of the Soldier Settlement Act, 1919, provides as follows:—

"Unless the Board shall, for special reasons, otherwise recommend, no such free grant shall be made to any settler who,

- (a) has, pursuant to the provisions of this Act, purchased from the Board any land; or,
- (b) has, pursuant to the provisions of this or of the former Act, secured from the Board any advance of money for the clearing of encumbrances on, or the purchase of, or the improvement of, any land; or,
- (c) is owner of, or has a vested, possessory interest in agricultural land of such area as, in the opinion of the Board, constitutes an average farm for the district within which the land is situated, or which in the opinion of the Board, is of the value of five thousand dollars."

If the settler is unable to subscribe to the statements in paragraphs marked a, b, and c of the Declaration, he is not to be granted entry unless specially recommended by the Board.

With respect to the information called for in paragraphs (d) and (e) of the Declaration, the Soldier Settlement Board considers that as a rule a farm of 320 acres may be considered an average farm for the western provinces for the purposes of section 15 of the Act. If, therefore, from the information furnished by the settler, it appears that he is owner of, or has vested, possessory interest in agricultural land of an area amounting to a half section (320 acres more or less), the settler's application is not to be entertained, unless he has been specially recommended for entry by the Board.

If the applicant is owner of, or has vested, possessory interest in agricultural land the value of which is \$5,000, he could be deemed disqualified unless he has been specially recommended by the Board. The present selling value of the land is to be accepted as its value for the purposes of the Act.

For the purposes of Section 15 of the Act, land owned by the husband or wife of the applicant is deemed to be owned by the applicant.

S.D.I. 21-75-10-4.6th A.  
Soldier Grant.

I have your letter of the 28th June last, wherein you express a desire to abandon the entries for your homestead and soldier grant, presumably with the intention of locating other land elsewhere.

In this connection I beg to say as title to the Natural Resources of Alberta will become vested in the province on the 1st August next, after which date the administration of Crown lands will be undertaken by the Provincial Government, the time at your disposal is insufficient for completion of the transaction of abandonment; the obtaining of authority to re-enter, and the selection of other land elsewhere.

However, if you still wish to abandon your entries on the understanding that you may lose the right to re-enter under Provincial Statutes, you should have the enclosed forms of declaration of abandonment properly filled in and executed before a Justice of the Peace, Notary Public or Commissioner, and forwarded to the Agent of Dominion Lands at Grande Prairie for acceptance and transmission here when the necessary further action will be taken.

Yours,

Your obedient servant,

Commissioner of Dominion Lands.

*J. P. or Commissioner.*

Where the applicant is unable to subscribe to the statements in paragraphs (a), (b) and (c) of this Declaration, he is not to be granted entry unless he produces special authority from the Soldier Settlement Board or the District Superintendent. Applicants who are unable to subscribe to paragraphs (a), (b) and (c) should, therefore, take their cases up with the District Superintendent or the Board, explaining on what grounds they are applying for special authority.

Sub-Section 2 of Section 15 of the Soldier Settlement Act, 1919, provides as follows:—

"Unless the Board shall, for special reasons, otherwise recommend, no such free grant shall be made to any settler who,—

- (a) has, pursuant to the provisions of this Act, purchased from the Board any land; or,
- (b) has, pursuant to the provisions of this or of the former Act, secured from the Board any advance of money for the clearing of encumbrances on, or the purchase of, or the improvement of, any land; or,
- (c) is owner of, or has a vested, possessory interest in agricultural land of such area as, in the opinion of the Board, constitutes an average farm for the district within which the land is situated, or which in the opinion of the Board, is of the value of five thousand dollars."

If the settler is unable to subscribe to the statements in paragraphs marked (a), (b) and (c) of the Declaration, he is not to be granted entry unless specially recommended by the Board.

With respect to the information called for in paragraphs (d) and (e) of the Declaration, the Soldier Settlement Board considers that as a rule a farm of 320 acres may be considered an average farm for the western provinces for the purposes of section 15 of the Act. It, therefore, from the information furnished by the settler, it appears that he is owner of, or has vested, possessory interest in agricultural land of an area amounting to a half section (320 acres more or less) the settler's application is not to be entertained, unless he has been specially recommended for entry by the Board.

If the applicant is owner of, or has vested, possessory interest in agricultural land the value of which is \$5,000, he should be deemed disqualified unless he has been specially recommended by the Board. The present selling value of the land is to be accepted as its value for the purposes of the affidavit.

For the purposes of Section 15 of the Act, land owned by the husband or wife of the applicant is deemed to be owned by the applicant.

Mr. Martin.

Re Island in Lake Wiquelon, Alberta.

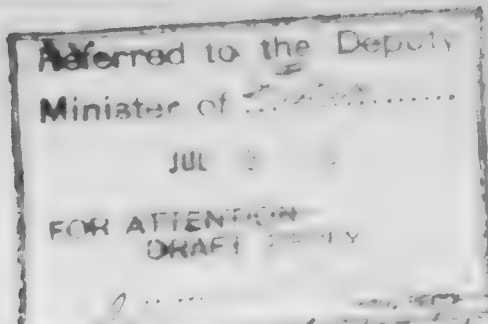

Referring to the Acting Deputy Minister's memorandum of the 12th ultimo, hereunder, respecting the communication from Mr. C. Reynolds of Camrose, Alberta, regarding a certain island in Lake Wiquelon, upon which he states that one, Mr. Romsten, is located, I beg to say that upon searching the records no trace can be found of Mr. Romsten's name and, consequently, it is not possible to identify the island referred to by Mr. Reynolds.

Attached are copies of the township plans (Township 43, Range 20, West of the 4th Meridian and Township 43, Range 21, West of the 4th Meridian) showing Lake Wiquelon, and as will be observed there are numerous islands in the lake. It is suggested, therefore, that Mr. Reynolds be furnished with copies of these plans and requested to mark thereon the island to which he has reference. Upon return of the plans the Department will be in a position to deal with the subject of his communication.

A reply has been prepared for the Acting Deputy Minister's signature.

Dear Mr. Reynolds,

In the Minister's absence I have your letter of the 5th ultimo, relative to an island in Lake Miquelon upon which one, Mr. Homsten, has been located for a number of years. You stated that Mr. Homsten has been informed by the prospective buyer of this property that he must leave the island as it is part of a quarter section allotted to the Canadian Pacific Railway Company.

It will be observed from the enclosed plans that Lake Miquelon is of considerable size extending into two townships (Township 45, Range 20, West of the 4th Meridian and Township 45, Range 21, West of the 4th Meridian) and that there are numerous islands in the lake. It is difficult, therefore, to identify the island upon which Mr. Homsten is located.

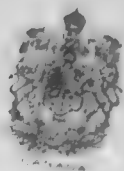

If you will mark on one or other of the plans the island in question and return them to the Department, the standing of the island will be looked up and we will see if anything can be done for Mr. Homsten.

Yours very truly,

The Deputy Minister of Lands and Mines,  
Edmonton,  
Alberta.

Sir:

I have your letter of the 4th instant enquiring as to the ownership of an alleged island in Lake Miquelon in the North East quarter of Section 17, Township 49, Range 20, West of the 4th Meridian.

In reply I may say that according to the records here the whole of this quarter-section was patented to the Canadian Pacific Railway Company, along with other lands, on the 22nd June, 1901, under Grant No. 7089. The official township plan does not show this quarter-section to be affected by Miquelon Lake.

As the Dominion's interest in the islands in this district passed to the control of the Province of Alberta with the transfer of the natural resources, it is suggested that you address any further enquiry which you may make in this regard to the Deputy Minister of Lands and Mines, Edmonton, Alberta.

Your obedient servant,

## AFFIDAVIT in support of application for soldier entry for

..... quarter of section 95  
 Township 87 Range 25 Meridian

I, Walter Pritchett of Hodgville  
 in the Province of Sask do solemnly declare  
 as follows:

- (a) That I have not purchased any land from the Soldier Settlement Board under the provisions of the Soldier Settlement Legislation;
- (b) That I have not pursuant to the provisions of the Soldier Settlement Legislation, secured from the Board any advance of money for the clearing of encumbrances on, or the purchase of, or the improvement of, any land;
- (c) That I have no application at present pending to purchase any land from the Board or to secure advances from it for the purposes mentioned in paragraph (b) hereof;
- (d) That I am not an owner of, nor have I a vested, possessory interest in, agricultural land except the following:

DESCRIPTION	Area	Assessed Value	Present Selling value
<u>1/2 Sec 8 Tp 87 Rg 25 W. 5 Mer. 1/60</u>			
1/4 Sec ... Tp ... Rg ... W. ... Mer. ....			

(Give description, area, assessed value and present selling value of each parcel of land owned.)

- (e) That my Wife or husband is not an owner of, nor has He or she a vested, possessory interest in, agricultural land except the following:

DESCRIPTION	Area	Assessed Value	Present Selling value
1/4 Sec ... Tp ... Rg ... W. ... Mer. ....			
1/4 Sec ... Tp ... Rg ... W. ... Mer. ....			

(Give description, area, assessed value and present selling value of each parcel of land owned.)

AND I make this solemn declaration conscientiously believing the same to be true and knowing that the same is of the same force and effect as if made under oath and by virtue of the Canada Evidence Act.

DECLARED before me

Walter Pritchett  
 this 29 day of July 19 27  
Walter Pritchett  
 J. P. or Commissioner.

Where the applicant is unable to subscribe to the statements in paragraphs (a), (b) and (c) of this Declaration, he is not to be granted entry unless he produces special authority from the Soldier Settlement Board or the District Superintendent. Applicants who are unable to subscribe to paragraphs (a), (b) and (c) should, therefore, take their application to the District Superintendent of the Board, explaining on what ground applying for special authority.

Sub-Section 2 of Section 15 of the Soldier Settlement Act, 1912, provides as follows:—  
"Unless the Board shall, for special reasons, otherwise recommend, no such free grant shall be made to any settler who,—

- (a) has, pursuant to the provisions of this Act, purchased from the Board any land; or,
- (b) has, pursuant to the provisions of this Act, purchased from the Board any advance of money for the clearing of encumbrances on, or the purchase of, or the improvement of, any land; or,
- (c) is owner of, or has a vested, possessory interest in agricultural land of such area as, in the opinion of the Board, constitutes an average farm for the district within which the land is situated, or which in the opinion of the Board, is of the value of five thousand dollars."

If the settler is unable to subscribe to the statements in paragraphs marked (a), (b) and (c) of the Declaration, he is not to be granted entry unless specially recommended by the Board.

With respect to the information called for in paragraphs (d) and (e) of the Declaration, the Soldier Settlement Board considers that as a rule a farm of 320 acres may be considered an average farm for the western provinces for the purposes of section 15 of the Act. If, therefore, from the information furnished by the settler, it appears that he is owner of, or has vested, possessory interest in agricultural land of an area amounting to a half section (320 acres more or less) the settler's application is not to be entertained, unless he has been specially recommended for entry by the Board.

If the applicant is owner of, or has vested, possessory interest in agricultural land the value of which is \$5,000, he should be deemed disqualified unless he has been specially recommended by the Board. The present selling value of the land is to be accepted as its value for the purposes of the affidavit.

For the purposes of Section 15 of the Act, land owned by the husband or wife of the applicant is deemed to be owned by the applicant.

In view of the fact that the Director of

Sir:

I have the honor to acknowledge the receipt of your letter of the 2nd inst. in relation to the application for a lease of land in the Township of Willow Creek, County of Calgary, Province of Alberta.

I am sorry to hear that the land in question is not available for lease at this time. The land is now being used for agricultural purposes and it is not possible to lease it at the present time. I am sorry that I cannot give you a more favorable answer.

I am, Sir, very respectfully,

Gentlemen:-

On Sept. 30th, we sent you blue-prints of railway spur at the mouth of Willow Creek for the Arcadia Coal Company, Limited. As we haven't heard anything from this, we would appreciate an answer, also, as to whether the department will approve of this railway spur projecting on to the Dominion Lands of Legal Subdivision 10 and 11 of Section 7-25-18-West of the 4th Mer. This is quite important, as the Railway Company are writing us to obtain this permission so that they can file plans with the Railway Commissioners in order to have the railway spur plans and agreement accepted by the Board. As it is nearly two months now, we feel that surely you would have time to have let us have an answer.

Thanking you in anticipation, we beg to remain.

Yours truly,

## Department of the Interior

DOMINION LANDS ADMINISTRATION

12th December, 1929.

Copy for A.D.L. Calgary, Alberta.  
Reference - 82400.

Sir,

Adverting to your letter of the 15th November last, and previous correspondence, I beg to say that the Department will be prepared to take the necessary steps to obtain the sanction of the Governor in Council for the issue of a lease to the Arcadia Coal Company, Limited, covering the lands required for spur lines in Legal Subdivisions 10 and 11, Section 7, Township 28, Range 18, West of the 4th Meridian, upon a plan on linen signed by a Dominion Land Surveyor being filed with the Department, showing the limits and areas of the respective spur lines, and upon a relinquishment of the areas from Ranch No. 13763, under lease to Messrs. William Caldwell and James Wilson being furnished.

*M.L.*  
In accordance with the usual practice in such cases, any lease would probably be for a term of ten years, with the customary clause providing for cancellation on one year's notice, and at an annual rental of \$25.00, payable in advance yearly. In addition to rental an initial fee of \$10.00 is payable to cover the cost of preparing the lease.

In a letter dated the 31st January, 1929, you intimated that a right of way for a spur line would also be required across Legal Subdivisions 15 and 16 of Section 7 and Legal Subdivisions 1, 2, 3, 4 and 5 of Section 17 of the aforementioned township, as shown on the

blue print which accompanied that letter. Since you refer to only legal subdivisions 10 and 11 of section 7 in your later correspondence, I beg to enquire whether the proposal to construct a spur across the other lands referred to has been abandoned. I may say that these other parcels are also comprised in ranch No. 1393, and accordingly it would be necessary to furnish a relinquishment of any areas which may be required for right of way for a spur through such lands before the Department would be in a position to consider the question of issuing a lease to the Company.

The delay in replying to your correspondence in this instance is much regretted.

Your obedient servant,

Commissioner.

Where the applicant is unable to subscribe to the statements in paragraphs (a), (b), and (c) of this Declaration, he is not to be granted entry unless he produces special authority from the Soldier Settlement Board or the District Superintendent. Applicants who are unable to subscribe to paragraphs (a), (b) and (c) should, therefore, take their cases up with the District Superintendent of the Board, explaining on what grounds they are applying for special authority.

Sub-Section 2 of Section 15 of the Soldier Settlement Act, 1919, provides as follows:—

"Unless the Board shall, for special reasons, otherwise recommend, no such free grant shall be made to any settler who,—

- (a) has, pursuant to the provisions of this Act, purchased from the Board any land; or,
- (b) has, pursuant to the provisions of this or of the former Act, secured from the Board any advance of money for the clearing of encumbrances on, or the purchase of, or the improvement of, any land; or,
- (c) is owner of, or has a vested, possessory interest in agricultural land of such area as, in the opinion of the Board, constitutes an average farm for the district within which the land is situated, or which in the opinion of the Board, is of the value of five thousand dollars."

If the settler is unable to subscribe to the statements in paragraphs marked (a), (b) and (c) of the Declaration, he is not to be granted entry unless specially recommended by the Board.

With respect to the information called for in paragraphs (d) and (e) of the Declaration, the Soldier Settlement Board considers that as a rule a farm of 320 acres may be considered an average farm for the western provinces for the purposes of section 15 of the Act. If, therefore, from the information furnished by the settler, it appears that he is owner of, or has vested, possessory interest in agricultural land of an area amounting to a half section (320 acres more or less) the settler's application is not to be entertained, unless he has been specially recommended for entry by the Board.

If the applicant is owner of, or has vested, possessory interest in agricultural land the value of which is \$5,000, he should be deemed disqualified unless he has been specially recommended by the Board. The present selling value of the land is to be accepted as its value for the purposes of the affidavit.

For the purposes of Section 15 of the Act, land owned by the husband or wife of the applicant is deemed to be owned by the applicant.

Sir,

N.S. 7-70-21-a. 5th Ver.

I beg to inform you that the Agent of Dominion Lands, Grande Prairie, Alberta, has forwarded your declaration of the 2nd ultimo, regarding your desire to be given permission to complete the required duties on the quarter-section your deceased father was squatting upon.

In reply I may say that any person who has not already exhausted his homestead right elsewhere is at liberty to squat on land in this township and proceed with the duties as required by the Dominion Lands Act.

I might further inform you when the land is surveyed the surveyor will accept from each squatter a statutory declaration setting out all duties performed by the squatter from the commencement of residence.

When the declarations are received by the Department each case will be dealt with on its merits.

I am enclosing, herewith, for your guidance, a copy of the Hand-book of the regulations which is printed for the information of the general public and would refer your attention to page 10 under the heading of "Squatter before and after survey."

Dear Sir,-

Re - SE $\frac{1}{4}$  & NE $\frac{1}{4}$  27-14-15 W. 4th,  
Lying South of Fox River.

Title to the above lands stands in the name of the Crown, and I am writing on behalf of Mr. Walter Bailey of Vauxhall, Alberta, to see if he can get a ten-year grazing lease on these two parcels of land, and also if it would be possible to have them opened up for homestead entry. He would like to file on one and his son on the other.

*Cofy*  
5491184

For your information, all the lands West and South of these two parcels were part of this Company's irrigation project, and have been sold to settlers who are now farming the same; Mr. Bailey and his son being already located on irrigated farms, one on the SE $\frac{1}{4}$  28 and the other on the SE $\frac{1}{4}$  29.

You can either advise Mr. Bailey at Vauxhall or through this office.

If you open these lands for homestead entry we have no doubt that they will be filed on immediately.

Very truly yours,

Certified Copy of a Report of a Committee of the  
Honorable the Privy Council, approved by His  
P.C.No.2131 Excellency the Governor General in Council on  
the 13th December, 1886.

-----

On a Memorandum dated 23rd November, 1886, from the Minister of the Interior, stating that in view of representations made to him by the Stock Association of the Provisional District of Alberta, that settlers were squatting upon lands along the river bottoms over which cattle were accustomed to go for water, it has been deemed advisable to have an investigation and a report made upon the matter by an Officer of the Department of the Interior, and that accordingly Mr. William Pearce, Superintendent of Mines, who has a thorough knowledge of the country, was instructed to make and during the past season did make, the requisite inspection.

The Minister submits a Report from Mr. Pearce to the effect that the complaint of the Stock Association is well founded, that squatters are taking up the water-frontages and watering places in certain Sections, and are excluding the cattle of the Stockmen therefrom, and with a view to prevent this difficulty from becoming a drawback to the Country, and in order to afford reasonable watering facilities it is suggested that the Sections and parts of Sections of land, colored pink on the annexed plan, be reserved for the purposes of watering and sheltering.

The Minister recommends that such of these lands as are at the disposal of the Government be reserved from sale and settlement, and that they be reserved as approaches to the water and as watering places for stock.

The Committee submit the above recommendation for Your Excellency's approval.

Clerk, Privy Council.

frac. S.E. 1/4 27-14-15-4th M.  
(South of Bow River) - Area 138 acres.

Area "A"

The Commissioner was asked for a report in reference to a communication from Mr. J. A. McLane of the Canada Land and Irrigation Company, Ltd., of Medicine Hat, who, under date of the 7th instant, recommends that the fractions above mentioned be thrown open for settlement in order that Mr. Walter Bailey of Vauxhall, Alberta, and his son, may have an opportunity of homesteading the same. Reference No. 4431.

In support of the foregoing it is stated that the Company is the owner of all the lands west and south of the two fractions in question, being part of their irrigation project, and that the Messrs. Bailey are already located on irrigated farms - one on the South East quarter of Section 28, and the other on the South East quarter of Section 29 in the said township.

These fractional quarter-sections, among others were reserved for stock-watering purposes by Order in Council of the 13th December, 1906, P.C. 2161, copy attached, and whereas there is no provision therein for withdrawal by the Minister, an amending Order-in-Council will be necessary.

Under the circumstances, it is suggested that the matter be referred to the Agent of Dominion Lands at Lettbridge with instructions to detail a Homestead Inspector to report as soon as possible whether the lands are required for the purpose for which they have been reserved, and providing it is found on investigation that such lands are not required for this purpose, it is suggested that the Governor-in-Council be requested to authorize the removal of the reservation in order that the lands may be made available for settlement.

The Messrs. Bailey presumably understand that the Department will be unable to give them prior right of entry and that they will require to take their chance in that connection in competition with other applicants, if any, when the land is posted. Other subject to the two days preference accorded returned men, otherwise they would appear to be eligible for entry in Area "A".

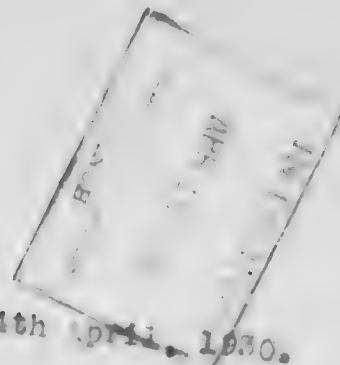

I may add that the water power Reclamation reports that these lands are not required in connection with water supply scheme of Alberta. The reservation in that being cancelled in 1917.

Dear Sir:-

I am in receipt of your letter of the 7th instant, in which you enquire on behalf of Mr. Walter Bailey of Vauxhall, Alberta, whether the fractional South East and North West quarters of Section 27, Township 14, Range 15, West of the 4th Meridian, (lying south of Bow River), might be made available for homestead entry or grazing lease.

According to the records of the Department these fractional areas were set aside as stock-watering reserves by Order-in-Council of the 13th December, 1886. As it is possible these lands may be no longer required for this purpose, we will ask our Agent at Lethbridge to have a Homestead Inspector investigate and report as to whether any use is being made of the lands and if they are further required for the purpose for which they were set aside.

Should it be decided, on receipt of the Inspector's report, to make these lands available for settlement an Order-in-Council will be necessary to withdraw the same from the existing reservation.

The Agent of Dominion Lands is being asked to note your name and address, also the name of

Sir:

Referring to your letter of the 20th April last, I beg to say that the above described lands are not now required for stock watering purposes either for privately owned stock, or stock on the range, or for obtaining water for culinary purposes.

Some people residing several miles distant turn their stock on the lands because it is government land, and the stock break through the fences of the men owning lands adjoining, and do a lot of damage to their crops.

I think that it is advisable to withdraw these lands from the stock watering reserve and that same be disposed of by sale to the parties with land adjoining same. I consider \$5.00 an acre a fair value for said lands.

You will note from file 5491182, herewith, that on the 12th August last a memorandum was sent to Council recommending the withdrawal of the above lands from stock-watering reservation.

DOMINION LANDS ADMINISTRATION

October 27, 1930.

Gentlemen,

Those portions of the South East and North West quarters of Section 27, lying South of the Bow River, Township 14, Range 15, West of the 4th Meridian, were reserved for stock-watering purposes by Order in Council of the 17th December, 1906.

In April last representations were made to this Department on behalf of Mr. Walter Bailey, of Vauxhall, Alberta, that the reservation covering these lands should be cancelled, in order that he might secure a ten year lease of the same, or that they be opened up for homestead entry.

Encl.

I enclose herewith a report dated the 11th June last from Homestead Inspector Wilcox, from which you will see that he recommends the withdrawal of these lands from the stock-watering reserve, and that they be disposed of by sale to parties with land adjoining.

It was the intention to have an Order in Council passed authorizing the withdrawal of these lands from the stock-watering reservation, and a memorandum was sent to Council with that in view, but in the meantime the natural resources were transferred to the Province of Alberta, and this Department can take no further action. The matter is, therefore, referred to your Department for further consideration.

Certified Copy of a Report of a Committee of the  
Honorable the Privy Council, approved by His  
Excellency the Governor General in Council on  
the 14th December, 1886.

-----  
On a Memorandum dated 23rd November, 1886,  
from the Minister of the Interior, stating that in view of  
representations made to him by the Stock Association of the  
Provisional District of Alberta, that settlers were squat-  
ting upon lands along the river bottoms over which cattle  
were accustomed to go for water, it has been deemed advisable  
to have an investigation and a report made upon the matter  
by an officer of the Department of the Interior, and that  
accordingly Mr. William Pearce, Superintendent of Mines,  
who has a thorough knowledge of the country, was instructed  
to make and during the past season did make, the requisite  
inspection.

The Minister submits a report from Mr. Pearce  
to the effect that the complaint of the Stock Association is  
well founded, that squatters are taking up the water-frontages  
and watering places in certain sections, and are excluding  
the cattle of the stockmen therefrom, and with a view to  
prevent this difficulty from becoming a drawback to the  
country, and in order to afford reasonable watering facilities  
it is suggested that the sections and parts of sections of  
land, colored pink on the annexed plan, be reserved for the  
purposes of watering and sheltering.

The Minister recommends that such of these  
lands as are at the disposal of the Government be reserved  
from sale and settlement, and that they be reserved as  
approaches to the water and as watering places for stock.

The Committee submit the above recommendation  
for Your Excellency's approval.

(Signed) John J. McFee,  
Clerk, Privy Council.

To the Honorable

The Minister of the Interior.

Area 2. 27-14-15-4th N.

The Commissioner was asked for a report in reference to a communication from Mr. J. A. Bailey of the Canada Land and Irrigation Company, Ltd., of Medicine Hat, who, under date of the 7th instant, recommends that the fractions above mentioned be thrown open for settlement in order that Mr. Walter Bailey of Vauxhall, Alberta, and his son, may have an opportunity of homesteading the same. Reference to 4451.

In support of the foregoing it is stated that the company is the owner of all the lands west and south of the two fractions in question, being part of their irrigation project, and that the Messrs. Bailey are already located on irrigated farms - one on the South East quarter of Section 26, and the other on the South East quarter of Section 22 in the said township.

These fractional quarter-sections, among others, were reserved for stock-watering purposes by Order in Council of the 13th December, 1926, S.O. 2151, copy attached, and whereas there is no provision therein for withdrawal by the Minister, an amendment in Council will be necessary.

Under the circumstances, it is suggested that the matter be referred to the Agent of Dominion Lands at Lethbridge with instructions to detail a Homestead Inspector to report as soon as possible whether the lands are required for the purpose for which they have been reserved, and providing it is found on investigation that such lands are not required for this purpose, it is suggested that the Governor-in-Council be requested to authorize the removal of the reservation in order that the lands may be made available for settlement.

The Messrs. Bailey presumably understand that the Department will be unable to give them prior right of entry and that they will require to take their chance in that connection in competition with other applicants, if any, when the land is posted, further subject to the two days preference accorded returned men, otherwise they would appear to be eligible for entry in Area 1.

I may add that the later lower location service reports that these lands are not required in connection with the Better Water Supply Scheme of Alberta, the reservation in that regard having been cancelled in 1927.

Representations have been made to the Department with a view to making the fractional quarter-sections above mentioned available for settlement under the homestead regulations, and I would ask you to be good enough to detail a Homestead Inspector to report whether the land is required for the purpose for which the same has been reserved, namely, stock watering.

Be good enough to issue the necessary instructions accordingly, and please see that the report is submitted without unnecessary delay.

MEMORANDUM:

J.W. McLean, Esq.,  
Commissioner of  
Dominion Lands.

The fractional North West and South East quarters of Section 27, south of river, Township 14, Range 15, West of the 4th Meridian, were reserved for stock-watering purposes by Order in Council of the 13th December, 1886.

In view of representations received in the Department from Mr. J.W. McLean, of Medicine Hat, Alberta, that these fractions should be made available for leasing, in order that Mr. Walter Bailey, of Vauxhall, Alberta, might have an opportunity of securing a lease thereof, or the same opened to entry, in order that he and his son might have an opportunity of filing thereon, an inspection was ordered.

A report has been received from Homestead Inspector Wilcox, in which he states that these lands are not now required for stock-watering purposes, either for privately owned stock or stock on the range, nor for obtaining water for culinary purposes. The Inspector states that some people residing several miles distant turn their stock on this land, and the stock break through the fences on settlers' adjoining lands, and do a lot of damage to their crops. He recommends that the lands be withdrawn from the reservation for stock-watering purposes and disposed of by sale to the parties with land adjoining.

The Dominion Water Power and Hydrometric Bureau advise that these lands are not required in connection with the better water supply scheme.

Under the circumstances, I think the necessary authority might be secured and a Memorandum to Council prepared, recommending the withdrawal of these lands from reservation for stock-watering purposes.

DECLARED before me 1900  
at Manitoba  
 this 1st day of April 1900

Henry A. Taylor  
Signature

J. P. or Commissioner.

Where the applicant is unable to subscribe to the statements in paragraphs (a), (b) and (c) of this Declaration, he is not to be granted entry unless he produces special authority from the Soldier Settlement Board or the District Superintendent. Applicants who are unable to subscribe to paragraphs (a), (b) and (c) should, therefore, take their cases up with the District Superintendent of the Board, explaining on what grounds they are applying for special authority.

Sub Section 2 of Section 15 of the Soldier Settlement Act, 1919, provides as follows:—

"Unless the Board shall, for special reasons, otherwise recommend, no such free grant shall be made to any settler who,—

- (a) has, pursuant to the provisions of this Act, purchased from the Board any land, or,
- (b) has, pursuant to the provisions of this or of the former Act, secured from the Board any advance of money for the clearing of encumbrances on, or the purchase of, or the improvement of, any land, or,
- (c) is owner of, or has a vested, possessory interest in agricultural land of such area as, in the opinion of the Board, constitutes an average farm for the district within which the land is situated, or which in the opinion of the Board, is of the value of five thousand dollars."

If the settler is unable to subscribe to the statements in paragraphs marked (a), (b) and (c) of the Declaration, he is not to be granted entry unless specially recommended by the Board.

With respect to the information called for in paragraphs (d) and (e) of the Declaration, the Soldier Settlement Board considers that as a rule a farm of 320 acres may be considered an average farm for the western provinces for the purposes of section 15 of the Act. If, therefore, from the information furnished by the settler, it appears that he is owner of, or has vested, possessory interest in agricultural land of an area amounting to a half section (320 acres more or less) the settler's application is not to be entertained, unless he has been specially recommended for entry by the Board.

If the applicant is owner of, or has vested, possessory interest in agricultural land the value of which is \$5,000, he should be deemed disqualified unless he has been specially recommended by the Board. The present selling value of the land is to be accepted as its value for the purposes of the act.

For the purposes of Section 15 of the Act, land owned by the husband or wife of the applicant is deemed to be owned by the applicant.

14th December, 1933.

Sir,

Fr. M.S. 7-77-13 3.6th W.

In view of the fact that the Director of  
Lands, Department of Lands and Mines of the Province of Alberta,  
has made application for several files relating to lands which  
lie partly in the Province of Alberta and partly in the Province  
of British Columbia, it has been decided to forward to you, for  
transmission to the Provincial authorities of the Province of  
Alberta, all the files relating to lands held under entry, and  
so situated.

You are, therefore, hereby authorized to deliver  
file no. 551 677 to the duly accredited representative of the Govern-  
ment of the Province of Alberta, who will acknowledge delivery thereof  
by signing the accompanying receipt, which you will be good enough to  
return to the Department for the purposes of record.

It would appear that 34.8 acres of this quarter-  
section are situated in the Province of British Columbia. I am,  
therefore, forwarding a copy of this letter to the Deputy Minister,  
Department of Lands, Victoria, British Columbia.

Your obedient servant,

Where the applicant is unable to subscribe to the statements in paragraphs (a), (b) and (c) of this Declaration, he is not to be granted entry unless he produces special authority from the Soldier Settlement Board or the District Superintendent. Applicants who are unable to subscribe to paragraphs (a), (b) and (c) should, therefore, take their cases up with the District Superintendent of the Board, explaining on what grounds they are applying for special authority.

Sub Section 2 of Section 15 of the Soldier Settlement Act, 1919, provides as follows:—

"Unless the Board shall, for special reasons, otherwise recommend, no such free grant shall be made to any settler who,—

- (a) has, pursuant to the provisions of this Act, purchased from the Board any land; or,
- (b) has, pursuant to the provisions of this or of the former Act, secured from the Board any advance of money for the clearing of encumbrances on, or the purchase of, or the improvement of, any land; or,
- (c) is owner of, or has a vested, possessory interest in agricultural land of such area as, in the opinion of the Board, constitutes an average farm for the district within which the land is situated, or which in the opinion of the Board, is of the value of five thousand dollars."

If the settler is unable to subscribe to the statements in paragraphs marked (a), (b) and (c) of the Declaration, he is not to be granted entry unless specially recommended by the Board.

With respect to the information called for in paragraphs (d) and (e) of the Declaration, the Soldier Settlement Board considers that as a rule a farm of 320 acres may be considered an average farm for the western provinces for the purposes of section 15 of the Act. If, therefore, from the information furnished by the settler, it appears that he is owner of, or has vested, possessory interest in agricultural land of an area amounting to a half section (320 acres more or less) the settler's application is not to be entertained, unless he has been specially recommended for entry by the Board.

If the applicant is owner of, or has vested, possessory interest in agricultural land the value of which is \$5,000, he should be deemed disqualified unless he has been specially recommended by the Board. The present selling value of the land is to be accepted as its value for the purposes of the affidavit.

For the purposes of Section 15 of the Act, land owned by the husband or wife of the applicant is deemed to be owned by the applicant.

When the applicant is unable to subscribe to the statements in paragraphs (a), (b) and (c) of this Declaration, he is not to be granted entry unless he produces special authority from the Soldier Settlement Board or the District Superintendent. Applicants who are unable to subscribe to paragraphs (a), (b) and (c) should, therefore, take their cases up with the District Superintendent of the Board, explaining on what grounds they are applying for special authority.

Sub Section 2 of Section 15 of the Soldier Settlement Act, 1919, provides as follows:—

"Unless the Board shall, for special reasons, otherwise recommend, no such free grant shall be made to any settler who,—

- (a) has, pursuant to the provisions of this Act, purchased from the Board any land; or,
- (b) has, pursuant to the provisions of this or of the former Act, secured from the Board any advance of money for the clearing of encumbrances on, or the purchase of, or the improvement of, any land; or,
- (c) is, or was, or has a vested, possessory interest in agricultural land of such area as, in the opinion of the Board, constitutes an average farm for the district within which the land is situated, or which in the opinion of the Board, is of the value of five thousand dollars."

If the settler is unable to subscribe to the statements in paragraphs marked (a), (b) and (c) of the Declaration, he is not to be granted entry unless specially recommended by the Board.

With respect to the information called for in paragraphs (d) and (e) of the Declaration, the Soldier Settlement Board considers that as a rule a farm of 320 acres may be considered an average farm for the western provinces for the purposes of section 15 of the Act. If, therefore, from the information furnished by the settler, it appears that he is owner of, or has vested, possessory interest in agricultural land of an area amounting to a half section (320 acres more or less), the settler's application is not to be entertained, unless he has been specially recommended for entry by the Board.

If the applicant is owner of, or has vested, possessory interest in agricultural land the value of which is \$5,000, he should be deemed disqualified unless he has been specially recommended by the Board. The present selling value of the land is to be accepted as its value for the purposes of the affidavit.

For the purposes of Section 15 of the Act, land owned by the husband or wife of the applicant is deemed to be owned by the applicant.

WHEREAS by section twenty-one of *The Alberta Act*, being chapter three of four and five Edward the Seventh, it was provided that "All Crown lands, mines and minerals and royalties incident thereto and the interest of the Crown in the waters within the province under *The North-west Irrigation Act, 1878*, shall continue to be vested in the Crown and administered by the Government of Canada for the purposes of Canada, subject to the provisions of any Act of the Parliament of Canada with respect to road allowances and roads or trails in force immediately before the coming into force of this Act which shall apply to the said province with the substitution therein of the said province for the North-west Territories;"

#### SOLDIER SETTLEMENT LANDS

13. All interests in Crown lands in the Province upon the disposal of which any advance has been made under the provisions of the *Soldier Settlement Act*, being chapter 188 of the Revised Statutes of Canada, 1927, and amending Acts shall continue to be vested in and administered by the Government of Canada for the purposes of Canada.

## NATIONAL PARKS

14. The parks mentioned in the schedule hereto shall continue as national parks and the lands included therein, as the same are described in the orders in council in the said schedule referred to (except such of the said lands as may be hereafter excluded therefrom), together with the mines and minerals (precious and base) in each of the said parks and the royalties incident thereto, shall continue to be vested in and administered by the Government of Canada as national parks, but in the event of the Parliament of Canada at any time declaring that the said lands or any part thereof are no longer required for park purposes, the lands, mines, minerals (precious and base) and the royalties incident thereto, specified in any such declaration, shall forthwith upon the making thereof belong to the Province, and the provisions of paragraph three of this agreement shall apply thereto as from the date of such declaration.

15. The Parliament of Canada shall have exclusive legislative jurisdiction within the whole area included within the outer boundaries of each of the said parks notwithstanding that portions of such area may not form part of the park proper; the laws now in force within the said area shall continue in force only until changed by the Parliament of Canada or under its authority, provided, however, that all laws of the Province now or hereafter in force which are not repugnant to any law or regulation made applicable within the said area by or under the authority of the Parliament of Canada shall extend to and be enforceable within the same, and that all general taxing acts passed by the Province shall apply within the same unless expressly excluded from application therein by or under the authority of the Parliament of Canada.

16. The Government of Canada will introduce into the Parliament of Canada such legislation as may be necessary to exclude from the parks aforesaid certain areas forming part of certain of the said parks which have been delimited as includ

ing the lands now forming part thereof which are of substantial commercial value, the boundaries of the areas to be so excluded having been heretofore agreed upon by representatives of Canada and of the Province, and the Province agrees that upon the exclusion of the said areas as so agreed upon, it will not, by works outside the boundaries of any of the said parks, reduce the flow of water in any of the rivers or streams within the same to less than that which the Minister of the Interior may deem necessary adequately to preserve the scenic beauties of the said parks.

#### SEED, GRAIN, ETC., LIENS

17. Every lien upon any interest in any unpatented land passing to the Province under this agreement which is now held by Canada as security for an advance made by Canada for seed grain, fodder or other relief shall continue to be vested in Canada, but the Province will, on behalf of Canada, collect the sums due in respect of such advances, except so far as the same are agreed to be uncollectible, and upon payment of any such advance, any document required to be executed to discharge the lien may be executed in such order of the Province as may be authorized by any provincial law in that behalf. The Province will account for and pay to Canada all sums belonging to Canada collected hereunder, subject to such deduction to meet the expenses of collection as may be agreed upon between the Minister of the Interior and the Provincial Secretary, or such other Minister of the Province as may be designated in that behalf under the laws thereof.

#### GENERAL RESERVATION TO CANADA

18. Except as herein otherwise expressly provided, nothing in this agreement shall be interpreted as applying so as to affect or transfer to the administration of the Province (a) any lands for which Crown grants have been made and registered under the *Land Titles Act* of the Province, and of which His Majesty the King in the right of His Dominion of Canada is, or is entitled to become the registered

owner at the date upon which this agreement comes into force, or (b) any ungranted lands of the Crown upon which public money of Canada has been expended or which are, at the date upon which this agreement comes into force, in use or reserved by Canada for the purpose of the federal administration.

#### HISTORIC SITES, BIRD SANCTUARIES, ETC.

19. The Province will not dispose of any historic site which is notified to it by Canada as such and which Canada undertakes to maintain as an historic site. The Province will further continue and preserve as such the bird sanctuaries and public shooting grounds which have been already established and will set aside such additional bird sanctuaries and public shooting grounds as may hereafter be established by agreement between the Minister of the Interior and the Provincial Secretary or such other Minister of the Province as may be specified under the laws thereof.

#### FINANCIAL TERMS

20. In lieu of the provision made by subsection one of section twenty of *The Alberta Act*, Canada will from and after the date of the coming into force of this agreement, pay to the Province by half-yearly payments in advance, on the first days of January and July in each year, an annual sum based upon the population of the Province as from time to time ascertained by the quinquennial census thereof, as follows:

The sum payable until the population of the said Province reaches eight hundred thousand shall be five hundred and sixty-two thousand five hundred dollars;

Thereafter until such population reaches one million two hundred thousand, the sum payable shall be seven hundred and fifty thousand dollars;

And thereafter the sum payable shall be one million one hundred and twenty-five thousand dollars.

21. If at the date of the coming into force of this agreement any payment has been made under subsection one of section twenty of *The Alberta Act* in respect of any half-year commencing before but terminating after the said date, a proportionate part of the payment so made shall be taken as having been made under the provisions hereof.

22. It is agreed that the Honourable W. F. A. Turgeon, a Judge of the Court of Appeal of Saskatchewan, Charles M. Bowman, of the Town of Waterloo, in the Province of Ontario, Esquire, Chairman of the Board of Directors of the Mutual Life Assurance Company of Canada, and Fred E. Osborne, Esquire, Mayor of the City of Calgary, or if any of the foregoing cannot act, then such other person or persons as may be agreed upon, will be appointed commissioners under Part One of the *Inquiries Act* to enquire and report whether any, and if any, what consideration, in addition to the sums provided in paragraph twenty hereof, should be paid to the Province in order that the Province may be placed in a position of equality with the other Provinces of Confederation with respect to the administration and control of its natural resources as from its entrance into Confederation in 1905, such commissioners to be empowered to decide what financial or other considerations are relevant to the enquiry, and the report to be submitted to the Parliament of Canada and to the Legislature of Alberta; and if by the said report, the payment of any additional consideration is recommended, then, upon agreement between the Governments of Canada and of the Province following the submission of such report, the said Governments will respectively introduce the legislation necessary to give effect to such agreement.

#### RECORDS

23. Canada will, after the coming into force of this agreement, deliver to the Province from time to time at the request of the Province the originals or complete copies of all records in any department of the Government of Canada relating

exclusively to dealings with Crown lands, mines and minerals, and royalties derived therefrom within the Province, and will give to the Province access to all other records, documents or entries relating to any such dealings and permit to be copied by the Province any of the documents required by it for the effective administration of the Crown lands, mines, minerals and royalties.

#### AMENDMENT OF AGREEMENT

24. The foregoing provisions of this agreement may be varied by agreement confirmed by concurrent statutes of the Parliament of Canada and the Legislature of the Province.

OTTAWA, May 23rd, 1930.

Circular Memorandum:

Kindly refer to my circular memorandum of the 12th instant, regarding the transfer and disposal of office and field equipment and non-expendable property of the department in the province of Manitoba.

It is now required that we secure similar statements of furniture and office equipment, and supplementary returns of any field equipment, surveying instruments, and other non-expendable property, etc., acquired by transfer or purchase, or struck off charge, since the close of the calendar year 1929, and located in the various offices and reserves in the provinces of Saskatchewan, and Alberta, and the Railway Belt in British Columbia, as these will be affected in a similar manner by the transfer of the natural resources.

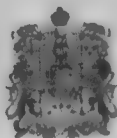

This statement should show the location of the property of your branch in the provinces concerned, and should give its cost, if available, and present estimated value. It should also show which equipment will be available for transfer or disposal on surrendering the natural resources, and should indicate the equipment which you consider should be retained for the requirements of the branch.

In order that the information may be readily available when the question of adjustment is taken up by the Minister with the provincial authorities, I would ask that your return be forwarded with the least possible delay.

It has now been decided, in connection with the transfer of the Natural Resources to the province of Manitoba, that fixed improvements such as Ranger Cabins, telephone lines on forest reserves, etc., should go with the lands free of any charge, but that we would inventory to the province all moveable equipment, the value of which is to be settled by two arbitrators, one appointed by the Dominion and one by the province.

Memorandum:

The Deputy Minister. (92 Sec.)

With reference to the transfer to the province of Manitoba of equipment which will no longer be required by this department on account of the transfer to that province of its natural resources, I beg to say that, as the Federal Government has transferred to the provinces natural resources worth millions of dollars, it is in the interests of the Dominion that these resources should continue to be efficiently developed. The financial resources of the provinces will, for a time, be heavily over-taxed because of expenditures in connection with this work. Any charges made by the Federal Government for equipment transferred must necessarily be paid from provincial funds voted for the development of the resources, and, under the circumstances, it would seem advisable that this department should be prepared to deal liberally with the provinces in respect to payment for equipment transferred.

Inasmuch as the department has not yet definitely decided what work will be carried on within the provinces by some branches affected by the transfer, the heads of such branches are not in a position to state definitely what equipment will be surplus to their requirements. For instance, the only branches of the department which have a chance of having property surplus to their requirements within the province of Manitoba are the Forestry and Dominion Lands Services. I would therefore recommend that the statement of the head of each branch should, for the present, be accepted with respect to surplus equipment within the province of Manitoba.

The equipment to be transferred may be divided into four classes, viz:-

1. Permanent Improvements, or Non-Moveable Equipment, such as telephone lines, fencing, buildings, etc. Non-moveable equipment might be defined as consisting of material the removal of which would destroy the value of the realty. This general principle is accepted, but there will be certain cases which require special rulings.
2. Moveable Property, consisting of Field equipment used for fire transport, camp equipment, etc.

3.

-2-

Class 3. Expendable property, which includes, usually, office desks, chairs, etc., etc. I would suggest that these be transferred free of charge to the province.

Class 4. Expendable property, which includes, usually, office desks, chairs, etc., etc. I would suggest that these be transferred free of charge to the province.

With respect to the third class - office equipment, I would suggest that the cost and valuation of this equipment should be set on the basis of a certain percentage of the original cost. It is difficult to find out the original cost of such equipment, as they are purchased years ago and are not available in the Department of the Interior. The Forest Service have submitted lists of such equipment. We request the Forest Service to provide this information showing the estimated value of this equipment could easily be obtained from the Western Offices - and that all equipment in Class 3 be transferred to the province on the basis of a certain percentage of its estimated present value.

The rates of percentage in both above cases should be agreed upon by the province and the Department of the Interior.

With respect to Class 4, Expendable property, I would suggest that this be transferred to the province free of charge.

Attached hereto are the following  
lists:-

1. Field and Office Equipment belonging to the Forest Service, available for transfer to the provinces. This list shows the original unit costs.
2. A copy of the same list, but without prices.
3. Property belonging to the Dominion Lands Services, available for transfer to the province. This list shows present estimated value.
4. A copy of the same list, but without prices.

If the suggestion respecting moveable property is accepted, it will be necessary to go through these lists again and possibly make some  
for revisions.

Respectfully submitted,

Secretary.

"The Cypress Hills National Forest crosses the provincial boundary of Saskatchewan and Alberta, and, being under one administration, the expenditure has not been recorded separately for each province. However, after a careful survey of the personnel and established improvements it has been decided that fully 70% of the expenditure has been incurred in connection with the province of Saskatchewan."

With reference to the lists submitted by you showing a list of equipment consisting of office furniture, stationery, etc., available for transfer to the province of Manitoba, will you kindly secure, as quickly as possible, the estimated present value of all such equipment. I understand from a conversation which I had with Mr. Cameron that this information can be obtained without much trouble by your Western officials.

It would also be advisable to secure the same information with respect to surplus office equipment which you have shown as available for transfer to the provinces of Alberta, Saskatchewan, and British Columbia.

If you have not copies of these returns in your office I think we could supply you with copies from here.

Dear Mr. Brownlee,-

With further reference to your telegram of the 10th instant and as promised in my reply of the 11th idem, I am appending hereto a list of the officials of this Department in Alberta engaged on work connected with the administration of the natural resources.

In addition, I am appending hereto a list of officials at head office. In preparing this list of head office officials, no mention has been made of clerks or stenographers graded lower than Clerk Grade 4, and of course we have not included in the list those branches that would be unaffected by the transfer of the resources to the Province.

If further information in this connection is desired, please let me know and I will obtain it for you.

Dear Mr. Stewart,-

Please accept my thanks for your  
of the 14th instant enclosing list of the of 3 of  
your department in Alberta examination work in connection  
with the administration of the natural resources.

I have not yet heard from the Prime  
Minister or yours if with reference to part of a former  
communication in which I raised the question of the  
transfer of these officials in the administration of the  
administration scheme if as I understand there is some a  
scheme. If there is no superannuation scheme in  
connection with Dominion officials there is no problem  
arises, but if there is some provision should be made  
by which any employees transferred to the provincial  
government should not lose the benefit of their  
interest in the Dominion fund. I would be obliged if  
you would inform me on this point.

TELEGRAPH

Honourable J.E. Brownlee,  
Premier,  
Edmonton, Alberta.

Department of the Interior,  
Ottawa, 11th July, 1930.

Understand it is your wish that Dominion continue administration natural resources until October first notwithstanding fact that legislation will probably actually transfer resources to Provincial control on August first proximo. Manitoba has met similar situation by applying for temporary loan of our administrative organization equipment and office space and my wire to Honourable McKenzie, Minister of Mines and Natural Resources, Winnipeg, reads as follows QUOTE Provided this department prepared to grant your request for loan for one month of our employees who have been engaged on natural resources administration work in your province on understanding you reimburse Federal Government for all outlay by way of salaries and take care of expenses and let us have at earliest possible moment list of our employees who are accepting employment with you. We will also lend you our equipment for same period and in meantime will settle just what part of this you are willing to take over and pay for and what we will transfer elsewhere. Understand Department Public will transfer earliest possible to occupy present quarters on works wiring you pay rent of rented quarters and notify Dominion earliest possible date leases which you will take over and also indicate that you have provided other quarters to take care of removal from Federal Government quarters will carry occupied. All foregoing is on distinct understanding that for this interim period Forestry officers will carry investigative and research work which we have undertaken to continue and Water Power officers will do the hydro-metric and incidental business we have agreed to continue. We will not ask you to pay for anything entailed in this Federal Government work UNQUOTE Think it well to mention this in case you are aware of action taken by that province. While our legal officers have not received

copy of Provincial natural resources legislation they presume that the Provincial Government is empowered to depute to Dominion Government authority to carry on for the Province the administration of the natural resources and if such a action is taken it is considered here that the authority should be clearly defined and that there should be an assurance that Federal action under the authority will be accepted without question by the Province the same exactly as the Acts of the Dominion in the administration of the resources have been accepted by the Province to date of transfer.

Dear Mr. Stewart, -

Re - Transfer of Natural  
Resources to Alberta.

To simplify procedure I have drafted a communication to Premier Brownlee for your signature. Please wire us when Agreement is signed and send the papers back so that our file may be completed.

By entering into this Agreement the province of Alberta stands to obtain service for two months for nothing, although, of course, we can offset against the outlay any revenue we may collect. The province of Manitoba is paying for our organization for the month for which they have borrowed it, and we will require them to pay for any further time that they may require our organization. A confidential line today from Mr. Walsley, Crown Timber Agent, New Westminster, is to the effect that British Columbia may have to borrow our staff temporarily. If they make any formal application we will, of course, consent, and ask them to reimburse us for our outlay in the way of salaries, etc.

AND WHEREAS it was further provided by certain

Dear Premier Brownlee,-

Re - Natural Resources Transfer.

I beg to confirm exchange of telegrams as follows:-

My Deputy Minister's wire of the 11th instant -

"Understand it is your wish that Dominion  
Overtime administration natural resources until

understanding you reimbursed on natural

employment with you. We will do possible

understanding you pay rent of present quarters

you will take over and also indicate that you

removal from Federal Government public buildings now occupied. All foregoing is on distinct understanding that for this interim period Forestry Officers will carry investigative and research work which we have undertaken to continue and Water Power officers will do the hydrometric and incidental business we have agreed to continue. We will not ask you to pay for anything entailed in this Federal Government work

UNNOTE Think it well to mention this in case you are unaware of action taken by that province. While our legal officers have not received copy of Provincial natural resources legislation they presume that the Provincial Government is empowered to depute to Dominion Government authority to carry on for the province the administration of the natural resources and if such action is taken it is considered here that the authority should be clearly defined and that there should be an assurance that Federal action under the authority will be accepted without question by the province the same exactly as the Acts of the Dominion in the administration of the resources have been accepted by the province to date of transfer."

His further wire of the 14th instant -

"This Government has surveyors engaged upon the subdivision of lands in the Peace River District found suitable for settlement by our land classification surveyor working in close cooperation with Dr. Wyatt of University of Alberta and a few other miscellaneous investigations required in the administration of surveyed lands. Please advise whether upon the transfer of resources your Government will desire that this work be continued for balance season and will you pay expenses after August first."

Your reply of the 19th instant -

"Have carefully considered your wires eleventh and fourteenth. Our suggestions to your Minister were based on belief that mutual interests Dominion and Province would be furthered by extending actual date of transfer until October first. Important questions will no doubt arise which cannot be met by Dominion Ministers until after election. For example, in approaching certain Dominion officials we have

already been met by difficulty that apparently no decision yet reached as to how members your Civil Service taken over by us will be treated under Superannuation Act. This becomes matter of first importance in our negotiations certain officials reference term employment. Relieving extension of time would operate to mutual advantage both Governments we prefer that Dominion Government should carry on in ordinary course until first October making that date of operation of resources legislation instead August first. Understand agreement ratified by Imperial House provides for amendment with concurrence both Governments and suggest if necessary agreement be amended substituting October first for date mentioned in present agreement. Provincial Government will confirm any action taken by Dominion in interval and if necessary undertakes have such concurrence ratified by legislation next Session. Referring wire fourteenth think this work should be considered as part of regular administrative work and therefore carried on until October first. Would appreciate your favourable consideration."

Our Counsel, Colonel O.W. Biggar, has informed me that the effective date of the Agreement which recently received Royal Assent can be postponed by a supplementary agreement to be entered into between the Premier of Alberta and the Minister of the Interior, subject to confirmation in due course by legislation. Colonel Biggar has drafted an agreement for your signature and mine and I am sending you the agreement in duplicate herewith having signed same on behalf of the Dominion so that you may complete same for the province and return me one copy.

As for the surveys now in progress to which reference is made in the telegram hereinbefore quoted, we will continue these until the 1st day of October.

Yours faithfully,

Office of  
The Deputy Minister of the Interior.

MEMORANDUM:

Mr. H. H. Finlayson

In the statement of property submitted by you as available for transfer to the province, it is noted that the equipment located on the Cypress Hills Forest Reserve has been all included in the list available for transfer to the Province of Alberta. I understand that this Reserve is partly in the province of Saskatchewan, as well as Alberta, and it is the intention to bill each province only with the equipment that is within the said province.

I should be glad, therefore, if you will advise me if a division of the equipment of the Cypress Hills Forest Reserve for each province can be made from the records of your office. If reference has to be made to the field, I would request that this information be secured at the earliest possible date.

The Director of Forestry,  
Department of the Interior,  
Ottawa, Ontario.

Dear Sir,

As requested in your wire of July 17th, there are attached hereto inventories covering the office property of the various forests in this district.

In checking over the valuations made by the supervisors, this office is of the opinion that the following reserves overvalued the equipment at the present time in the percentage indicated.

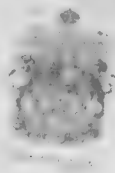

|               |     |
|---------------|-----|
| Clearwater    | 50% |
| Cypress Hills | 50% |
| Crownest      | 50% |
| Lesser Slave  | 10% |

In connection with the Alberta Railway Fire Ranging District, there are two lists attached, one for the field equipment and one for the office equipment. Although this property is used by Duncan Gray exclusively, it appears on the Alberta Inspection Inventory. It is presumed that the province is taking over this activity and for this reason it may be desirable to transfer the property at present used by Duncan Gray.

Yours faithfully,

Dear Mr. Hunter,-

The Honourable J. B. Brownlee, Premier of Alberta, has wired to say that the province will take over the administration of all branches of natural resources from the 1st October proximo. We will borrow some of our staff at the outset for one month, and has asked that we request you to permit the province to continue the use of the premises occupied presently by the Commission staff until the province can make other arrangements.

I presume that what Premier Brownlee has in mind is an arrangement similar to that obtained by the province of Manitoba. Will you please let me have word from you as early as possible today so that we may cover this feature in the reply which is being prepared for our Minister's signature.

MEMORANDUM:

Mr. Cory.

The first case under the Migratory Birds Convention Act in the Province of Alberta will be transferred to the Province on October 1st, under the agreement for the return of the natural resources.

The equipment on charge at the first sanctuaries in Alberta is given on the attached sheet with an estimate of the present value. There is no equipment on charge to the first sanctuaries in the other provinces affected.

I recommend that this equipment in Alberta be transferred, without charge, to the Province on October 1st.

Memorandum:

Mr. J. B. Harkin.

I have your memorandum of the 29th ultimo, enclosing a list showing the equipment on charge to the bird sanctuaries in Alberta, which you recommend should be transferred free of charge to the provinces.

We have listed and made a valuation of all the property and equipment which it is expected will be surplus to the department's requirements as a result of the transfer of the natural resources. It is our present intention to turn this over to the provinces at a price to be agreed upon by representatives of this department and the Provincial Governments. For the present, however, we are allowing them to use such of the equipment as they require, without charge.

Memorandum:

Mr. J. W. Martin.

I have a copy of your memorandum of the 30th ultimo addressed to Mr. Marchand, respecting an inventory of the equipment belonging to the Dominion Lands Service in the West.

Complete inventories have been made of all equipment belonging to the Dominion Lands Service in the Western provinces. The department expects to arrive at a valuation of the same acceptable to the provinces concerned, as well as this department, with a view to selling all of the equipment.

Alberta and Saskatchewan have been loaned staff and equipment until 1st December, so that nothing could be done before that date.

The Forest Service are not as yet in a position to state definitely the property they will have available for transfer to the provinces, and the department prefers to delay negotiations until it can deal with the disposal of all equipment, rather than deal with the equipment of each branch separately.

Summing up the foregoing, the following suggestions are made:-

1. That the department retain all equipment required for its own use.
2. That all surplus office and field equipment marked with an asterisk in the above statement be transferred to provinces at a valuation that would be so reasonable as to permit of the provinces taking all of this equipment, rather than only a part, and that the amounts to be paid be the subject of agreement between representatives of the provinces and of this department.
3. That all equipment classed as "Permanent Improvements" be transferred to the provinces free of charge.

The bulk of the equipment referred to in the foregoing statement was formerly used by the Forest Service, and I understand the Director is also submitting a memorandum setting forth his views on this subject.

Respectfully submitted,

Secretary.

According to our present inventories, the equipment available for transfer to the provinces is as follows:-

MANITOBA

- x- Office Equipment; present estimated value.... 10,570.68
- x- Forest Service - field equipment; original cost..... 72,919.19
- Forest Service - amount expended on permanent improvements - buildings, telephones, roads, and nurseries, during the years 1912-13 to 1929-30..... 172,134.88

SASKATCHEWAN

- x- Office Equipment; present estimated value.. 19,636.90
- x- Forest Service - field equipment; original cost..... 92,187.05
- Forest Service - amount expended on permanent improvements - buildings, telephones, roads, and nurseries, during the years 1912-13 to 1929-30..... 429,479.05

ALBERTA

- x- Office Equipment; present estimated value. 22,109.76
- x- Forest Service - field equipment; original cost..... 132,698.82
- Forest Service - amount expended on permanent improvements - buildings, telephones, roads, and nurseries, during the years 1912-13 to 1929-30..... 526,104.89

BRITISH COLUMBIA

- x- Office Equipment; present estimated value. 6,508.89
- x- Forest Service - field equipment; original cost..... 84,484.39
- Forest Service - amount expended on permanent improvements - buildings, telephones, roads, and nurseries, during the years 1912-13 to 1929-30..... 132,425.13

4. Expendable property, which includes articles of comparatively small value, the length of service of which is usually short, and which require replacement frequently, such as kitchenware, office desk equipment, ink wells, paper weights, etc.

With respect to the first class - Permanent Improvements, or non-moveable equipment - it is suggested that this be transferred free of charge to the provinces.

With respect to the second class - Moveable Property - there would be great difficulty in making a physical valuation of this, and the cost in time required to make such a valuation would not seem to be justified. The department has complete records showing the original cost of all such equipment and from these it should be possible to ascertain very closely the present value. It is suggested that an arbitrary valuation - possibly a lump sum - be set, using the department's inventory as a basis.

With respect to the third class - Office Equipment, etc., - this has been largely supplied and paid for by the Department of Public Works. It is understood, however, that they have agreed that we should deal with office furniture as though it belonged to this department. To have an inventory showing the estimated present value of all such equipment, and it is suggested that the Public Works Department be asked to concur in these valuations, and that the office furniture, etc., referred to in Class 3 be transferred to the provinces at a valuation less than the estimated value, provided they take all, or the major portion, of such equipment.

With respect to Class 4 - Expendable Property - it is suggested that this be transferred to the provinces free of charge.

The inventories prepared show the surplus equipment available for transfer to the provinces as at the 1st May last. It is true, there have been some changes which might be called 'shrinkages' since that date, but these shrinkages have mostly taken place while the equipment was in use during recent months by the provinces. I would estimate that the shrinkages would not amount to more than one percent, and, therefore, I do not think it is worth while preparing entirely new lists, which would involve a great deal of labour.

The branches concerned are Dominion Lands, Forestry, and Supervisory Mining Engineer to the extent of about \$1,000.00. The equipment of the Dominion Lands is largely made up of office furniture, although they have some field equipment consisting of Inspectors' outfits. The Forest Service have some office furniture but the major portion of their property is field equipment.

Memorandum;

January 7th, 1931.

The Deputy Minister.

Re: Transfer of Equipment  
to Provinces.

With reference to the transfer to the Western Provinces of equipment which will be surplus, due to the transfer of the natural resources, it should be noted that, as the Federal Government has transferred to the provinces natural resources worth millions of dollars, it is in the interest of the Dominion that these resources should continue to be efficiently developed. The financial resources of the province will for some time be heavily over-taxed because of expenditures in connection with this work. Any charges made by the Federal Government for equipment transferred must necessarily be paid from provincial funds voted for the development of the resources, and, under the circumstances, it would seem advisable that this department should be prepared to deal liberally with the provinces in respect to payment for equipment transferred.

As each branch affected by the transfer of the natural resources will still be carrying on some work within the Western Provinces, it is suggested that each branch head should be allowed to retain such equipment as, in his opinion, is considered necessary for the proper carrying on of the work within these provinces.

The equipment to be transferred may be divided into four classes, viz:

1. Permanent Improvements, or non-moveable equipment, such as telephone lines, fencing, buildings, etc. Non-moveable equipment might be defined as consisting of material, the removal of which would destroy the value of the realty.

Even if this general principle is accepted, there may be certain cases which will require special rulings.

2. Moveable property, consisting of all field equipment used for fire fighting, transport, camp equipment, etc.
3. Office equipment, consisting of desks, chairs, filing cases, etc., etc.

Summing up the foregoing, the following suggestions are made:-

1. That the department retain all equipment required for its own use.
2. That all surplus office and field equipment marked with an asterisk in the above statement be transferred to provinces at a valuation that would be so reasonable as to permit of the provinces taking all of this equipment, rather than only a part, and that the amounts to be paid be the subject of agreement between representatives of the provinces and of this department.
3. That all equipment classed as "Permanent Improvements" be transferred to the provinces free of charge.

The bulk of the equipment referred to in the foregoing Statement was formerly used by the Forest Service, and I understand the Director is also submitting a memorandum setting forth his views on this subject.

Respectfully submitted,

Secretary.

According to our present inventories, the equipment available for transfer to the provinces is as follows:-

MANITOBA

- x- Office Equipment; present estimated value.....10,570.68
- x- Forest Service - field equipment; original cost. .... 72,918.19
- Forest Service - amount expended on permanent improvements - buildings, telephones, roads, and nurseries, during the years 1913-14 to 1929-30. .... 172,134.82

SASKATCHEWAN

- x- Office Equipment; present estimated value.. 119,536.90
- x- Forest Service - field equipment; original cost. .... 92,187.05
- Forest Service - amount expended on permanent improvements - buildings, telephones, roads, and nurseries, during the years 1913-14 to 1929-30. .... 432,479.05

ALBERTA

- x- Office Equipment; present estimated value. 23,109.76
- x- Forest Service - field equipment; original cost. .... 132,695.53
- Forest Service - amount expended on permanent improvements - buildings, telephones, roads, and nurseries, during the years 1913-14 to 1929-30. .... 565,104.59

BRITISH COLUMBIA

- x- Office Equipment; present estimated value. 6,338.29
- x- Forest Service - field equipment; original cost. .... 84,484.39
- Forest Service - amount expended on permanent improvements - buildings, telephones, roads, and nurseries, during the years 1913-14 to 1929-30. .... 128,425.13

4. Expendable property, which includes articles of comparatively small value, the length of service of which is usually short, and which require replacement frequently, such as kitchenware, office desk equipment, ink wells, paper weights, etc.

With respect to the first class - Permanent Improvements, or non-moveable equipment - it is suggested that this be transferred free of charge to the provinces.

With respect to the second class - Moveable Property - there would be great difficulty in making a physical valuation of this, and the cost in time required to make such a valuation would not seem to be justified. The department has complete records showing the original cost of all such equipment and from these it should be possible to ascertain very closely the present value. It is suggested that an arbitrary valuation - possibly a lump sum - be set, using the department's inventory as a basis.

With respect to the third class - Office Equipment, etc., - this has been largely supplied and paid for by the Department of Public Works. It is understood, however, that they have agreed that we should deal with office furniture as though it belonged to this department. We have an inventory showing the estimated present value of all such equipment, and it is suggested that the Public Works Department be asked to concur in these valuations, and that the office furniture, etc., referred to in Class 3 be transferred to the provinces at a valuation less than the estimated value, provided they take all, or the major portion, of such equipment.

With respect to Class 4 - Expendable Property - it is suggested that this be transferred to the provinces free of charge.

The inventories prepared show the surplus equipment available for transfer to the provinces as at the 15th May last. It is true, there have been some changes which might be called 'shrinkages' since that date, but these shrinkages have mostly taken place while the equipment was in use during recent months by the provinces. I would estimate that the shrinkages would not amount to more than one percent, and, therefore, I do not think it is worth while preparing entirely new lists, which would involve a great deal of labour.

The branches concerned are Dominion Lands, Forestry, and Supervisory Mining Engineer to the extent of about \$1,000.00. The equipment of the Dominion Lands is largely made up of office furniture, although they have some field equipment consisting of Inspectors' outfits. The Forest Service have some office furniture but the major portion of their property is field equipment.

Re: Transfer of Equipment to

This will be dealt with eventually as a matter of governmental policy, but in the meantime, so that the provinces may get ahead with the business of administering the natural resources, I am authorized by our Minister to state that generally speaking the permanent improvements or non-moveable equipment such as telephone lines, fencing, buildings, etc., go with the forest reserves and fire fighting districts, and in case of future negotiations there will be a bookkeeping entry, but there will be no collection from the provinces at present.

As for moveable property, consisting of all field equipment used for fire fighting, transport, camp equipment, etc., and office equipment, consisting of desks, chairs, filing cases, etc., the department should retain everything required for the use of the continuing organization. Anything remaining should be handed over to the provinces if they want it, and they can be assured that they will be asked to pay only the minimum valuation for this that can be justified by the circumstances. There should be no difficulty in arriving at such a valuation on a basis satisfactory to the provinces.

Memorandum:

Mr. J. P. Martin.

In reply to your memorandum of the 17th instant, enquiring as to whether or not we could supply your continuing officers in the four prairie provinces with office equipment sufficient for carrying on their work, I understand from my *Manitoba* telephone conversation with you that the office will be in Winnipeg. We have all of the office furniture formerly used by the Dominion Land Agent at Dauphin and, therefore, could supply your Winnipeg needs from this, if you will let me know just what they are.

With respect to Alberta, your office, I understand, will be at Calgary. We have today advised you of the list of furniture and field equipment which Mr. Helmer formerly used, and this should be transferred to your office. If this is not sufficient for your needs the Commissioner of Irrigation and the Supervisory Mining Engineer will each have some surplus furniture shortly which could be made available for you.

With respect to the Edmonton Office, there is all the furniture formerly used by Mr. Matheson and Mr. Bannerman, which should be sufficient for your continuing offices.

With respect to the Saskatchewan Office, in Moosejaw, we will have available the furniture and typewriter formerly used by Mr. Lee, attached to the Supervisory Mining Engineer's staff at Estevan. This, I understand, can be transferred to you.

With respect to the S.C. Office, to be continued in Revelstoke, I have no information as to whether the province took over the furniture belonging to the Agent of Dominion Lands at that point. You could, perhaps, ascertain information in this respect from your continuing officer. If none of this is available, we could supply furniture from New Westminster, as Mr. Walsley left considerable equipment which we handed over, temporarily, to Mr. J. J. Saunders, of the Forest Service. He was advised that he might use it until we had other need for it.

If you will advise me of just what equipment you require for each of these offices we will then be in a position to advise you definitely.

Mr. Cameron.

I herewith return your memorandum of the 17th instant, with accompanying memorandum relative to equipment not required by the continuing organization of the Forestry Branch.

It is hoped that within the next short while it may be possible to obtain approval of the Forestry Branch estimates so that our continuing work may be finally organized.

In the meantime it would seem impossible to deal finally with the equipment problem other than to say that any equipment which you have not reserved, and which is required by any other branch of our Department, should be turned over to that branch.

Acting Deputy Minister.

Office of  
The Commissioner of Dominion Lands

Memorandum:

Ottawa, 23rd February, 1931.

Mr. Roberts.

Referring to your memorandum of the 20th instant, I beg to advise that a communication has been received from Mr. James F. Drew, our continuing representative at Winnipeg, advising that he is occupying the space formerly used by the Crown Timber Agent and his staff, at that point, and that same is fully equipped in the way of furniture, etc.

Mr. Cowell, at Calgary, is using the space formerly occupied by Mr. Helmer - 607 Southern Building, and although he has apparently no surplus equipment, he has sufficient for the use of himself and staff.

Regarding the Agent of Dominion Lands at Edmonton, (Mr. Voranuy), he is occupying the space formerly used by the Acting Assistant Commissioner and staff. This office is already fully equipped, and nothing further will be required.

Mr. J. A. Bell, Agent of Dominion Lands, Moosejaw, will require sufficient furniture and equipment for himself, one clerk, one stenographer, and two Homestead Inspectors. If you would, therefore, arrange to have Mr. Bell supplied with one stenographer's desk, chair, typewriter; one desk for himself, and three other desks for the remainder of the staff, together with one dozen office chairs and some filing cabinets, it would be appreciated.

This matter should be attended to at once as Mr. Bell has a lot of work to proceed with, and whatever.

Re: Macdonald Natural  
Resources transfer

Dear Sir,

Your Departmental Solicitor, Mr. H. L. Hall, this morning submitted to me, for consideration, your draft of a telegram proposed to be transmitted to the Honourable J. W. Anderson, Premier of Saskatchewan, in answer to telegram of the 6th inst. from Mr. J. W. Bennett, Deputy Minister of Natural Resources of that Province, asking to be advised whether the buildings and other improvements on certain forest reserves within the Province are now the property of the Province.

In your draft telegram you state that "generally speaking the permanent or non-moveable equipment such as telephone lines fencing buildings etcetera go with the forest reserves and fire ranging districts". This statement does not appear to me to be in accordance with the intention expressed in the provisions of the Agreement with the Province of Saskatchewan, and, having regard to what I apprehend to be the intention expressed in the provisions of the Agreement, I suggest that the terms of your draft telegram ought to be altered so as to make it read as follows,-

"Under Bennett's telegram sixth. The Transfer of natural resources to Province was subject to reservation of buildings under clause nineteen of Agreement of Inter-Allied Unrestricted lands of Crown upon which public money of Canada has been expended. Therefore buildings and other improvements within forest reserves and fire ranging districts remain the property of the Dominion. It is proposed that these buildings and other improvements should be transferred to the Province we are not asking the Province to pay anything on this account at the present juncture. Nevertheless this fact should be noted for consideration in discussions now pending re natural resources settlement."

H. A. Gibson, Esq.,  
Acting Deputy Minister,  
Department of the Interior,  
Ottawa.

Yours faithfully,  
(s.d.) J. Stuart Edwards  
Deputy Minister of Justice.

equipment cannot be handed over to the Parks Branch as there is, due to the light snowfall and lack of precipitation last fall, every prospect of a bad fire season, and the provinces are depending on receiving at least a part of our equipment.

Revised inventories of property available for transfer to Manitoba and British Columbia have been prepared by the Forest Service, and revised inventories for Saskatchewan and Alberta will soon be completed.

All of the provinces used our equipment last year. The depreciation on the same was very heavy. As a matter of fact, the provinces have been using a number of our motor cars all winter, and in some instances are now turning them back after they are practically worn out. In other instances, they used our horses last fall, and then turned them back in the early winter when they had no feed for them.

All of the provinces have at different times been in communication with the Forest Service or Dominion Lands Branch, with a view to conducting negotiations for the transfer of surplus equipment. It is therefore very desirable, and urgent, that, at least in so far as the moveable field equipment is concerned, some definite settlement should be made with the provinces at once. There are really only two points outstanding which demand immediate attention, viz:

1. In view of the fact that the fire season is only a few weeks away, the provinces should be advised at once that all moveable essential fire fighting equipment, etc., surplus to the department's requirements will be turned over to them. There should be no further loans.

2. Negotiations should be opened at the earliest possible date to fix on the valuation of the equipment transferred.

I would therefore recommend that the provinces be advised immediately that all moveable property and field equipment used in the Western Provinces, which is now surplus to this department's requirements, will be transferred to them, if desired, at a minimum valuation, the amount to be determined by conference between representatives of the provinces and of this department, at the earliest date possible and at a point to be agreed upon.

Respectfully submitted,

Secretary.

Memorandum:

The Deputy Minister.

With reference to the attached memorandum from Mr. Cameron, in connection with the transfer of surplus equipment to the provinces, the Justice Department have already advised respecting non-moveable equipment that, under the terms of the agreement, buildings and other improvements within the forest reserves and fire ranging districts remain the property of the Dominion, and, while it is proposed that these buildings and other improvements should be transferred to the provinces, and that we will not ask for payment at the present juncture, nevertheless the fact should be noted for consideration in discussions now pending re natural resources settlement.

With reference to moveable property you instructed Mr. Finlayson on the 29th January last as follows:-

"As for moveable property, consisting of all field equipment used for fire fighting, transport, camp equipment, etc., and office furniture, - the department should retain everything for use of the continuing organization; any remaining should be handed over to the provinces if they want it, and they can be assured that they will be asked to pay only the minimum valuation for this that can be justified by the circumstances."

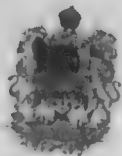

and on the 9th January you further instructed as follows:-

"At the present time it is not desired to address any formal communications to the provinces on the subject."

On the 24th February a further communication was addressed to Mr. Cameron, which reads in part as follows:-

"In the meantime, it would seem impossible to deal finally with the equipment problem, other than to say that any equipment which you have not reserved, and which is required by any other branch of our department, should be turned over to that branch."

Since this I have secured from different branches a statement showing the field equipment required which can be supplied from forestry surplus, and these requests are being taken care of. In this connection it should be understood that all surplus fire fighting

Memorandum:

Mr. Roberts.

I herewith return the papers relative to movable equipment rendered surplus to the future requirements of the Forestry Branch by the transfer of the natural resources.

In dealing with this property the department must proceed along ordinary business lines. Anything required for the continuing branches of our department should be available for that branch. As for the balance of the equipment it is available for the province but, of course, they have to pay for it and the value of such property is the value the day the province commenced to use it. There should be no difficulty in reaching an adjustment of this value because there is no intention of being unreasonable in the matter and I have no doubt but that the province expect to pay a fair value for what they have taken or will take. The wire received from Mr. MacPayden about the car wanted by the province of British Columbia bears out this contention. Evidently the province of British Columbia expect to pay any depreciation on our cars turned over to them. It would be a better idea, I think, to sell them the cars outright at the regular turn-in value allowed by the dealers, and then they can get this back from the dealers when they buy their new cars.

Acting Deputy Minister.

Dear Sir,-

Just prior to the province Alberta taking over the administration of its Natural Resources last year, the department had prepared a very complete list showing all office and field equipment under the control of the Dominion Lands Administration. It was expected that the provincial authorities would take over practically all this when they assumed control. I understand they have done so at certain points, but at others they have only taken over part of the equipment.

In order that we may know exactly where we stand in so far as Dominion Lands equipment at Calgary is concerned, I am enclosing a list, in duplicate, showing equipment on charge to the Office of the Agent of Dominion Lands at that point. I would request that you make the necessary investigation and indicate on this list, by placing the letter 'P' in front of each article, the equipment taken over by the province, and state where the balance of the equipment is now stored.

Your early attention to this matter will be much appreciated.

The Deputy Minister.

With reference to the wire received from the Acting Deputy Minister of Lands and Mines, Edmonton, Alberta, enquiring what fire fighting equipment will be available for transfer, I beg to say that the Forest Service have just completed an inventory of all their equipment in Alberta and are today forwarding to their Calgary Office lists of equipment to be transferred to the Parks and other branches of the department.

For the continuing Forestry organization they propose to retain the following:-

- Relinquish  
7/24/31*
1. Equipment on Cooking Lake and Cypress Hills Reserve, for use on a Forest Experiment Station.
  2. Equipment for one other Experiment Station, to be established on the Eastern Slope.
  3. The Alberta, Inspection, and Bow River Office, Calgary, (equipment).
  4. Sufficient camp and transport equipment for two ten-men Inventory and Rate of Growth Parties.

The balance of the equipment in Alberta will be available for transfer to the province. This will consist largely of the equipment now on Crownst, Bow, Clearwater, Athabasca, Lesser Slave, and Grasseau Reserves; also Edmonton and McMurray Fire Stations.

The Forest Service are forwarding tomorrow an inventory for the province of Alberta to their Calgary Office, on receipt of which the Calgary Office will list the equipment available for transfer to the province of Alberta. A copy of this list, showing the original cost, only, can then be made available to the province by Mr. Morse, and our copy returned to Ottawa. This list should be available for the province in about ten days' time.

Dear Sir,-

I beg to report the sale of Dominion Government property at Bonnyville, Alberta, on the 27th ultimo, after being duly advertised, as follows:-

| <u>Article</u>                 | <u>Purchaser</u> | <u>Price</u> |
|--------------------------------|------------------|--------------|
| One brown mare                 | St. Pierre       | \$41.00      |
| One bay mare                   | St. Pierre       | 22.00        |
| One set double driving harness | St. Pierre       | 13.00        |
| One buggy                      | Paul Salley      | 28.00        |
| Total:                         |                  | \$104.00     |

The above described property was formerly in the possession of Timber Inspector D.A. McKay, of the Edmonton Dominion Lands Agency.

The name of the auctioneer, who disposed of this property is F. Lariviere, to whom I paid the sum of Five dollars and twenty cents (\$5.20), commission of five percent on total sales, out of my contingent account. The address of the auctioneer and different purchasers is Bonnyville, Alberta.

The cutter that belonged to this outfit was left by Mr. McKay at the farm of M.D. Morrison, near Colinton, Alberta, some ninety miles north of Edmonton, in the Spring of 1930. I see by a letter on file that Mr. Morrison has made an offer of Twelve Dollars (\$12.00) for the cutter. I believe this to be a good price at this season of the year, as same has been in use for some three years.

I might further say that the imitation Buffalo robe mentioned in the sale bill of the McKay outfit, was not forthcoming on the day before the sale when I visited Mr. Emil Baril's place to inspect the outfit, he, Mr. Baril, stating that the robe had been stolen from the buggy in his yard the previous night. I learn from Inspector McKay that this article had been in use some four years, and its value would not exceed two or three dollars.

Office of  
Agent of Dominion Lands

OTTAWA, April, 14th, 1931.

Dear Sir,

With reference to Mr. Commissioner Martin's letter to me of the 31st ultimo enclosing a list, in duplicate, of office and field equipment belonging to this office, I beg to return herewith one copy of the list in which I have noted what equipment was taken over by the Provincial Government and what is being left and is in storage here.

In the space headed "Field Equipment" and charged to Agent of Dominion Lands, I would say the Agent of Dominion Lands never had any field equipment. The items under that heading might have been intended for Forested Inspector J. D. McMillan, whose equipment was sold at St. Paul on the 6th May, 1930. The sale comprised:-

|                          |         |
|--------------------------|---------|
| One Ray Horse,           | \$30.00 |
| One Ray Horse,           | \$30.00 |
| One set driving harness, | \$10.00 |
| One Cutter,              | \$15.00 |
| One Wagon,               | \$5.00  |

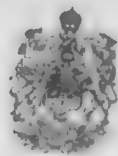

Mr. McMillan in his report of equipment on hand on the 31st March, 1931, states also that he had two horse blankets, two halters and one buffalo robe. The horse blankets are stated to be new and of no value and it is possible these articles along with the halters, were included in the sale of the horses. In any case I would ask that they be written up, as Mr. McMillan will report to the buffalo robe.

Yours sincerely,

(srd.) A. Lerquay.

Agent.

Memorandum:

The Deputy Minister. (5527000-Alta.Equip.)

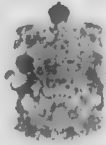

With reference to the attached telegram from Mr. John Harvie, and memorandum from Mr. Harkin, respecting the Ministik Bird Sanctuary, I am attaching a statement showing the equipment on all bird sanctuaries in the province of Alberta available for transfer to the province. The total original cost of the equipment was \$1157.67. As we have offered to transfer the Forest equipment to the province on a basis of 25% of its original cost, the amount involved in this transfer would be \$289.40. The equipment used on the Ministik Lake Bird Sanctuary originally cost \$76.34; 25% of this amount would be \$18.98.

I agree with Mr. Harkin that, while the Wardens of the sanctuaries are being appointed under the Migratory Birds Act, this has nothing to do with the equipment which they require in their capacity as Wardens, and that this should be supplied by the province. Copies of wires sent to Alberta and British Columbia in connection with equipment attached.

Respectfully submitted,

Secretary.

John Harvie, Esq.,  
Acting Deputy Minister,  
Department of Lands and Mines,  
Edmonton, Alberta.

Your wire twenty-third. Department is forwarding you list of equipment on all Bird Sanctuaries in Alberta available for transfer to province. Original cost of equipment on all Sanctuaries was Eleven Hundred and Fifty Seven Dollars, on Ministik Lake Sanctuary Six Hundred and Seventy Six Dollars. We are prepared to turn this over to province on basis of twenty-five per cent of cost if all taken or forty percent if selection made. Services of all Bird Sanctuary caretakers were dispensed with on first October last. Some of these are being appointed Honorary Game Wardens under Migratory Birds Convention Act, but these appointments have nothing to do with disposal of Dominion equipment on Sanctuaries.

In compliance with the promise given in the Deputy Minister's night letter of the 30th ultimo, I am now enclosing a list showing all of the equipment in Bird Sanctuaries in the province of Alberta available for transfer to the province.

You will note that we have deducted the original cost of the last two items from the grand total, as these are now stated to be of no value.

The basis of settlement for this equipment is the same as has been offered to all of the Western provinces in connection with the transfer of surplus equipment.

Memorandum for file. (5527000-Alberta Equipment)

Re: Forestry Fire Fighting Equipment,  
etc., available for Transfer to  
the Province of Alberta.

On July 11th, 1930, Premier Brownlee was advised by wire from the Deputy Minister of the Interior that all Forestry fire fighting equipment would be loaned to the province, and that at a later date we would settle just what part might be taken over by them and paid for.

The equipment was used by the province during the season of 1930.

On March 31st, 1931, a wire was received from Mr. John Harvie, Acting Deputy Minister, Department of Lands and Mines, Edmonton, asking for information respecting Forestry fire fighting equipment available for transfer to the province.

On April 6th Mr. Harvie was advised by wire that we had forwarded to Mr. Morse, Forest Service, Calgary, a list of equipment available for transfer at a fair valuation.

Mr. Morse prepared a list of the equipment available and presented the same to Mr. Harvie. The total original cost of the equipment according to this list is \$134,586.38; 25% of this amount would be \$33,646.59. This includes all withdrawals from Alberta equipment which have been made on account of small quantities of equipment transferred to the Parks Branch.

No further communication has been received from the province.

Dear Sir,-

(5527000-Alta.-Equip.)

With reference to the conference held yesterday in the Assistant Deputy Minister's office, in connection with the transfer to the province of surplus Forestry moveable, fire fighting, and other equipment, I beg to confirm the understanding which was reached, viz: that when the joint inventory now being prepared by officers of the province and Federal Forestry officials is completed, the same will be submitted to the Department of the Interior in order that an invoice may be prepared and accounts rendered for the materials taken over by the province of Alberta.

I might mention that this department has considered moveable equipment as consisting of all field equipment used for fire fighting, transport, camp equipment, etc. Non-moveable equipment might be defined as consisting of material, the removal of which would destroy the value of the realty. For example: telephone lines, fencing, buildings, furnaces, etc.

I understand that the cars taken over from this department were turned in on the purchase of new ones, and that you are prepared to allow the amount of the turn-in value. This is quite satisfactory.

The office furniture and equipment formerly on charge to the Dominion Lands Administration, which has been taken over by your department, has in all cases been valued by the Department of Public Works officials or someone capable of making a valuation, and it is our intention to advise the Department of Public Works just as soon as we are in a position to do so of whatever has been taken over by the department and allow them to negotiate with you respecting the price to be paid for the same. In this connection, I believe you mentioned that all of the typewriters taken over from this department had been turned in and new ones purchased, and that you were prepared to allow the turn-in value received for the typewriters. I do not know whether the King's Printer will wish to check the turn-in values received, but it appears to me from the information at hand that the arrangement suggested by you would be quite satisfactory.

Your obedient servant,

Mr. John Harvie,  
Acting Deputy Minister,

Edmonton, Alberta.

(1117000-111. 111.)

With reference to the conference held yesterday in the Assistant Deputy Minister's room, respecting the transfer of Forestry surplus moveable equipment to the province of Alberta, the understanding reached with Mr. Harvie was that the joint inventory now being prepared by the province and your Western officials would, when complete, be submitted to the department in order that an invoice might be made out covering the equipment taken over by the province.

Mr. Harvie stated that the province had turned in the cars taken over from this department and applied them on the purchase of new ones, and that they would be prepared to allow us the turn-in value. This appears to be quite satisfactory.

I am enclosing a copy of a letter which we are today forwarding to Mr. Harvie, confirming our understanding of the result of yesterday's conference.

Secretary.

DEPARTMENT OF THE INTERIOR  
Office of  
Agent of Dominion Lands. 2266

Edmonton, 18th May, 1931.

Dear Sir,-

With further reference to my letter of the 10th April last to Mr. Hume, and your reply of the 29th ultimo, re files of different Agencies, I beg to say that these files will be maintained in storage here.

Referring to the old letter books authorized to be destroyed, I beg to inform you that the Provincial Government have taken these as well as whatever stock of stationery and forms which were left in our basement storage, in the Blowey Henry Building, leaving only five barrels Tar Sands; two copying presses and two broken stenographers chairs.

The equipment taken by the province from our basement storage in the Blowey Henry Building is as follows:-

- 1 Edison Rotary Mimeograph / 75
- 1 Ellams Rotary Duplicator.
- 1 Card Index Box (single)
- 1 Luggage truck.
- 4 Metal filing cases.
- 1 Metal Ledger Rack (2 section)
- 4 Metal Ledger Racks (12 section)
- 8 Small Correspondence Baskets (wire)
- 14 Large Correspondence baskets.
- All stationery and books and a small Indian Department show case, which was used to exhibit samples of twine, etc., on which tenders were asked, of small value.

Please advise me if the department wish me to do anything with the Tar Sands.

In so far as this office is concerned that portion of the basement in this building formerly occupied by us is no longer required, as whatever supplies may be required from now on can easily be stored in the space now occupied by this office.

Yours sincerely,  
(Sgd) A. Norquay,  
Agent.

The Acting Commissioner  
Dominion Lands,  
Department of the Interior,  
Ottawa.

Dear Mr. Fuller,-

With further reference to recent correspondence respecting Dominion Lands Office Equipment available for transfer to the Prairie Provinces, in connection with the transfer of the Natural Resources, I have had prepared, and enclose, two copies of a statement showing office equipment formerly belonging to our Western Dominion Lands Administration which the province of Alberta has taken over at the following points:-

|                     |                 |             |
|---------------------|-----------------|-------------|
| Lethbridge.....     | \$ 4,906.25     |             |
| Calgary.....        | 2,158.50        |             |
| Edmonton.....       | 7,743.20        |             |
| Peace River.....    | 2,016.65        |             |
| Grande Prairie..... | <u>2,332.51</u> | \$19,157.11 |

In addition to the equipment as taken over at Edmonton, there was a counter containing a number of drawers, the total estimated value of which was \$350.00. It was understood that the province took only the drawers, and the estimated value of these has not been included in the statement attached.

The appraisals of the Dominion Lands furniture were, in all cases, made prior to the transfer of the resources to the provinces, and in most instances by officers of the Dominion Lands Administration who have since gone over to the province. We have, therefore, reason to believe that the estimated values shown on the lists are

fairly accurate. We are prepared, however, to agree to any settlement which your department may make with the province of Alberta respecting this equipment. According to our records, these lists represent all of the office equipment formerly on charge to the Dominion Lands Administration which the province of Alberta has taken over at all points within the province.

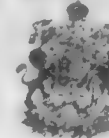

There may, at a later date, be some Forestry office equipment taken over by the province, but we are not at all sure in this connection and suggest that you make this a separate transaction, the same as you have done in the other provinces.

Yours very truly,

Deputy Minister.

Sir:-

P.12753-1B. Re: Flower Henry  
Building, Edmonton, Alberta.

In reply to yours of the 1st instant with reference to billing the Provincial Government for drawers removed from the Dominion Lands counter. I interviewed John Harvie, Esq., Provincial Deputy Minister of Lands and Mines on the 5th instant. His Department is retaining these drawers, but as to payment he declined to make a separate item of this, stating that the whole of the furniture they took from these offices along with the furnishings at other points would be dealt with in one settlement.

Mr. Harvie was in Ottawa about ten days ago, and stated the matter of furniture taken over by the Province in connection with the Natural Resources transfer was taken up by him with the Honourable the Minister of Interior. I understood the arrangement was the Province would pay 25% of the value in cases where they took the whole of the equipment in any one office, and in cases where only a portion of the equipment was taken the Province would pay 40% of the value. In the case of the Dominion Lands at Edmonton, the whole of the furniture was not taken. All that was left behind excepting the counter, cashier's cage and a large safe, was in very poor condition.

I would point out that it is desired to vacate the second floor of the Flower Henry Building on or before the 30th instant, and if the Government Contract Supervision Committee advertises the counter and cashier's cage, quick action will be necessary otherwise the Government will have to take out the counter and cage and store same. This procedure owing to the bulk will be an expensive item.

Yours obedient servant,

W. C. Fuller,  
Dist. Resident Architect,  
Calgary.

FROM: The Assistant Chief Architect,  
Department of Public Works.

TO: The Secretary,  
Department of the Interior.

With reference to the space vacated by your department in the Flourey-Henry Building at Edmonton, Alberta, the District Resident Architect reports that when the Provincial Government moved out of the building they took with them a number of drawers belonging to a counter supplied to your department and requested that they be billed for these drawers. Our local representative states that the counter is of no use without the drawers and has recommended that it be sold as it is too bulky to store. The matter was placed before the Department and authority was given to bill the Provincial authorities for the drawers and to sell the frame work of the counter. On the 1st instant Mr. Sellens was instructed to complete arrangements and under date of the 6th instant reports as per copy enclosed herewith. You will note he states that the Provincial Government intend to dispose of this item with the rest of the furniture and in this connection it is stated that an arrangement has been made with your Department whereby they are to pay only 25% of the value in cases where they took the whole of the equipment and in cases where only a portion of the equipment was taken they are to pay 40% of the value.

As this Department has no knowledge of any arrangement with the Provincial Government for the disposal of furniture on this basis, the Department will appreciate hearing from you in this connection. As stated by the District Resident Architect it is proposed to entirely vacate the second floor of the Flourey-Henry Building on the 30th instant and if this counter is to be sold quick action will be necessary, otherwise we will have to arrange for its storage after that date.

Dear Sir,-

(5527000-Alta. Equip.)

I have your letter of the 12th instant, respecting office furniture, etc., formerly on charge to the Agent of Dominion Lands in the Blowey-Henry Building, at Edmonton, Alberta, which has been taken over by the provincial authorities, and having special reference to payment for a counter containing a number of drawers.

When Mr. Harvie, Acting Deputy Minister, Department of Lands and Mines, Edmonton, was in Ottawa recently, we discussed with him the transfer of Forestry moveable equipment, consisting of fire fighting and camp equipment, transport, etc. The understanding reached was that the province would pay 25% of the original cost of such equipment, provided they took over all of such equipment, or 40% if they selected only a part. This arrangement had absolutely nothing to do with the office furniture and equipment formerly on charge to the Dominion Lands Administration. It was explained to Mr. Harvie that he would have to negotiate with your department respecting the payment for the same.

I am enclosing, for your information, a copy of a letter dated the 19th ultimo, which was sent to Mr. Harvie immediately following the conference at Ottawa referred to by him.

Acting on information received from the Forest Service, the Deputy Minister wired Mr. John Harvie, Acting Deputy Minister, Lands and Mines, Edmonton, on the 6th April last, that a complete inventory of Forestry Moveable Equipment available for transfer to Alberta was being forwarded to Mr. Morse, who would prepare a list and present the same to the provincial authorities.

So far, we have not received any advice of the progress which is being made with the preparation of the list referred to or the checking of the equipment with the provincial authorities. Will you please advise me in this connection.

Memorandum.

Mr. Finlayson. (5527000-Alta.Equip.)

Last year lists were prepared showing office equipment used by the Forest Service, available for transfer to the province of Alberta. No action was taken on these lists to dispose of any of the equipment, and, due to the time which has elapsed and changes in your programme of work, there may be considerable changes.

I am enclosing copies of these lists and would ask you to have them checked by your local officer, and indicate what equipment, if any, has to be taken over by the province by placing the letter 'P' in front of each item.

You will note there is no list showing the equipment in the Inspection Office, at Calgary, or the office on Cooking Lake Forest Reserve. I understood from a remark you made the other day that you would not be carrying on any operations at either of these points in the future; if so, you will possibly have some furniture at these points which could be offered to the province or turned over to the Department of Public Works as surplus.

Attention - Mr. W.H. Bailey

Under date of the 18th instant we received the following report from our District Office at Calgary concerning the sale of Ford marine engine in patrol boat "Pilgrim", No. 723 B:-

"I am in receipt of a Bank Money Order for \$50.00 which I am enclosing herewith, being payment for the purchase of the Ford marine engine in patrol boat 723 B. I am assured by the Provincial Forester that this is a fair price to expect for this worn out engine and I would recommend that his action in selling it be approved."

It is observed from this letter that the Provincial Forester made the sale and this engine with scow "Pilgrim" was listed as available for transfer to the Province. I would ask that authority be granted for the sale of this engine for the sum of \$50.00, which amount has been received by this office.

July 3rd, 1931.

Memorandum:

Mr. F. H. Finlayson. (552700) - Alta. - Equip.)

I have your memorandum of the 25th instant, respecting the sale of a Ford Marine Engine in patrol boat 'Pilgrim', No. 723-3. You state that the engine has been sold by the Provincial Forester for the sum of \$30.00, and that this engine, together with the boat 'Pilgrim', was listed as available for transfer to the province.

The only marine engine which I find listed for transfer to the province of Alberta is one shown as No. G.L. 2., No. 17213, Department of the Interior, 765-B; price \$51.87. This can scarcely be the engine referred to in your memorandum. I would, however, like to be advised of the value which you placed on this engine, and to be furnished with any information you may have as to why the Provincial Forester should have undertaken the sale, in view of the fact that the engine was listed for transfer.

Mr. E.H. Finlayson. (5527000-Alta. Equip.)

With reference to your memorandum of the 4th instant, respecting moveable Forestry equipment available for transfer to the province of Alberta, we enquired what progress was being made with the preparation of the inventory and the checking of this with the provincial authorities. You replied, stating that you had no indication of what the province intended doing in regard to the inventory forwarded to Mr. Harvie on the 6th April last.

I would point out that the Deputy Minister did not forward any inventory on the 6th April last, but wired to Mr. Harvie that a complete inventory had been forwarded to Mr. Morse, who would prepare from this a list of equipment available to Alberta. There is nothing on our file to show that Mr. Morse has yet prepared an inventory and presented it to the Alberta Government. Will you kindly advise us what Mr. Morse has done in this connection?

I might point out that some three months have elapsed, and he should have had plenty of time in which to complete the list.

Memorandum:

July 13th, 1931.

Mr. P. Marchand. (22 Sec.)

When the conference between provincial representatives and this department took place last May, respecting the transfer of equipment, etc., the province of Alberta advised that all the Forestry cars taken over by them had been turned in on new equipment, and that they were prepared to allow us the turn in values received.

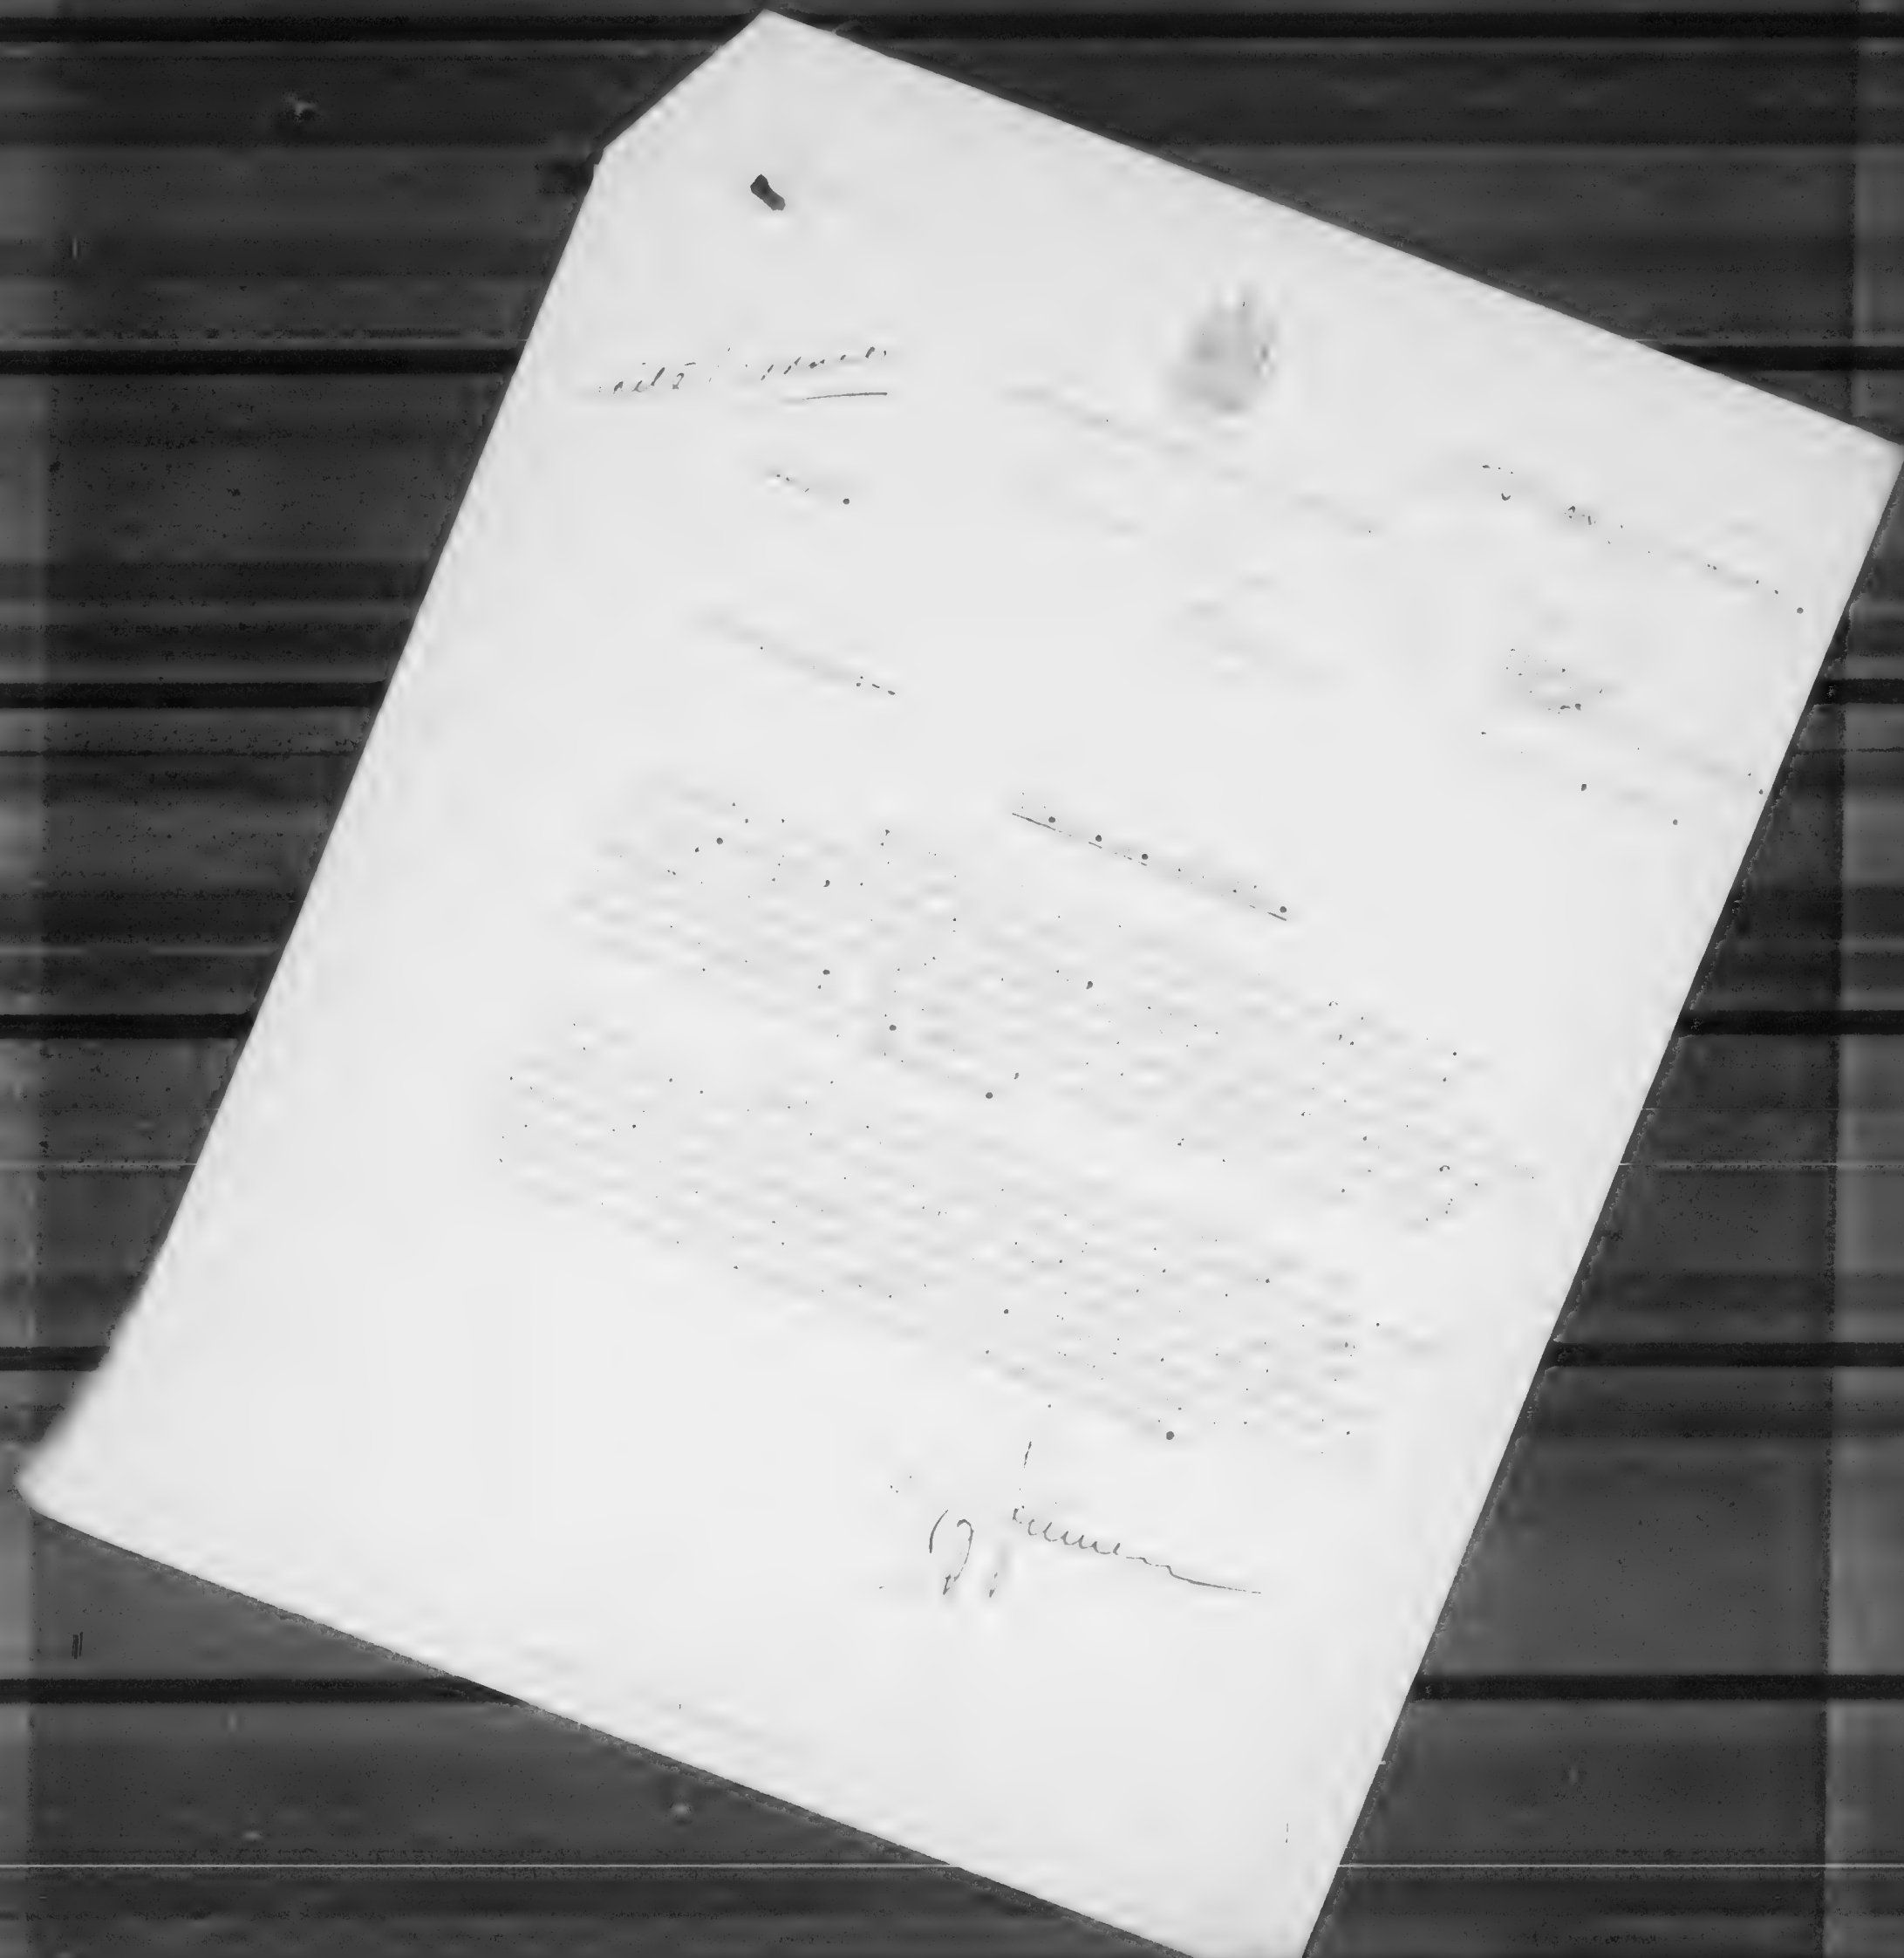

On the 19th May Mr. Harvie, Acting Deputy Minister, Department of Lands and Mines, was advised in part as follows:-

"I understand that the cars taken over from this department were turned in on the purchase of new ones, and that you are prepared to allow the amount of the turn in value. This is quite satisfactory."

We are now advised by the Forest Service that the province of Alberta disposed of Ford Truck M.T. 772 for \$125.00; Ford Light Delivery M.T. 776 for \$15.00, and Star Convertible Roadster M.T. 771 for \$50.00, and that these amounts have been paid and forwarded to your branch.

This will be your authority for writing the cars off charge to the Forest Service.

Secretary.

Dear Mr. Harvie,-

7

My understanding of the agreement reached was that as soon as the Provincial and Federal Forestry officers had completed a check up of the equipment taken by the province, a joint inventory would be prepared and submitted so that a proper accounting could be had.

(5527000-Alta.)

25th June With reference to your memoranda of 25th June and the 22nd instant, in connection with the sale of the province of Alberta of one 'Ford Marine' No. 723-B, at a cost of \$19.40. boat 'Pillar' purchased in 1924, which it has been sold. engine was purchased for \$50.00 of the original cost. Therefore, the amount that we would have received from, would be approximately \$30.60. Under the or the amount that they purchased it. Under the the province had they purchased it. Under the circumstances, the sale may be completed.

It is not understood why the province should have undertaken to sell this engine, as our understanding was that they would only make sales where a turn in of equipment was being made on the purchase of new equipment. This matter will be taken up with Mr. Harvia while he is in Ottawa.

Secretary.

August 1st, 1931.

Memo randum:

Mr. J. P. Harkin. (5527000-Alta. Equip.)

Some time ago you furnished me with a list of equipment available for sale to the province of Alberta on the following Bird Sanctuaries:-

Miquelon Lake -  
Ministik Lake -  
Pakowki Lake -  
Birch Lake  
Many Island Lake -  
Lac la Biche

the original cost of which was \$1426.60. A list of this equipment was furnished to Mr. Harvie, Acting Deputy Minister, Department Lands and Mines, on the 2nd May last.

Yesterday, in discussing with Mr. Harvie the general question of the transfer of property to the province, he advised me that they had not taken over any of the equipment on these sanctuaries and that at least some of it was being held by former caretakers as a guarantee for their salary, and that in several cases the equipment was not there. I understand that Mr. Harvie also discussed this question with you, and I should be glad to know if you wish us to take any further action towards the disposal of this equipment to the province, or other parties.

Secretary.

Memorandum:

Mr. Gillespie. (5527000- 11a.-Equip.)

Attached is a list of Treasury Office equipment available for transfer to the province of Alberta.

Will you please compare this with the list prepared by you last fall, and have prices entered, so that a new statement can be prepared for submission to the Public Works Department and to the province.

The Public Works list should include furniture, typewriters, etc. The list to go to the province should contain books, office desk equipment, small drafting instruments, etc.

August 5th, 1931.

Dear Sir,-

(5527000-Alta.-Equip.)

With reference to our conversation of yesterday, respecting the inventory of Forestry moveable equipment available for the province of Alberta, a copy of the Inventory was furnished to you by Mr. C. H. Morse on the 17th April last. My understanding is that the motor cars shown on this list have been turned in by your department on the purchase of new equipment and that we will be allowed the turn-in values. This is quite satisfactory.

There are some other small items appearing in the list, such as badges Dominion Forest Service, marking axes Forestry Branch, branding irons, etc., which would be of no value to the province. These should be eliminated from the list. There is also an engine which was in the 'Pilgrim' motor boat which has been sold for \$50.00 and the amount paid in to this department. Due credit should be taken for this.

Further, on page 4 of the inventory I notice that the following telephone equipment has been included:-

|                               |        |
|-------------------------------|--------|
| 5 Coils, repeating.....       | 133.03 |
| 26 Condensers, telephone..... | 24.01  |

Page 10:-

|                                |        |
|--------------------------------|--------|
| 22 ground rods.....            | 15.75  |
| 121 Protectors, telephone..... | 106.93 |

Page 11:-

|                             |         |
|-----------------------------|---------|
| 1 telephones, lookout.....  | 177.25  |
| 1 telephone, mine.....      | 34.00   |
| 79 telephones, wall.....    | 1764.05 |
| 14 telephones, desk.....    | 428.15  |
| 5 telephones, test set..... | 65.05   |

These should be deleted from the list as it was the intention that they would be regarded as part of the permanent equipment on the reserves transferred; therefore, no charge would be made to the province.

It is my understanding that you were having this inventory checked by Mr. Eiefgen, and that you would give definite instructions upon your return to Edmonton to have the work speeded up.

John Harvie, Esq.,  
Acting Deputy Minister,  
Lands and Mines,  
Edmonton.

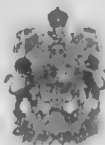

You mentioned that since the inventory forwarded you by Mr. Morse had been prepared certain equipment included in the inventory had been transferred by the Forest Service to the North West Territories and Yukon Branch. In this connection, I beg to state that none of the equipment transferred to other branches of this department was included in Mr. Morse's inventory to you except what was sent to Dr. Truesdell. This was shown on page 13 of the inventory, as follows:-

|                          |               |
|--------------------------|---------------|
| 1 Hydraulic Pump.....    | 294.00        |
| 1 Section Hose.....      | 8.00          |
| 1 Strainer.....          | 2.00          |
| 1 Nozzle, aluminum.....  | 2.50          |
| 1,000' hose, 1 1/2"..... | 204.00        |
|                          | <u>510.50</u> |

It is assumed that you will now be in a position to have the joint inventory completed at an early date and a copy submitted here, in order that a proper invoice may be prepared.

Your obedient servant,

Secretary.

*Alta Equipment*

Memorandum,

Mr. Roberts,

With reference to your memorandum of the 1st of August, 1931, in connection with equipment available on the following bird sanctuaries in Alberta:

Miquelon Lake.  
Ministik Lake.  
Pakowki Lake.  
Birch Lake.  
Many Island Lake.  
Lac la Biche.

I wish to advise you that the question of disposing of our equipment on the above sanctuaries, transferred to the Province of Alberta, was taken up with the Deputy Minister in my memorandum of the 29th of September last, wherein it was recommended that the equipment in Alberta be transferred without charge to the Province on October 1, 1930. The Deputy Minister's reply of October 2, 1930, to my memorandum, reads in part as follows:

"We have listed and made a valuation of all the property and equipment which it is expected will be surplus to the Department's requirements, as a result of the transfer of the natural resources. It is our present intention to turn this over to the Province at a price to be agreed upon by representatives of this Department and the Provincial Government. For the present, however, we are allowing them to use such of the equipment as they require without charge."

From your memorandum of the above date it would appear that some of the equipment is being held by former caretakers, as a guarantee for their salaries. As far as this Department is concerned, the services of the former caretakers of the bird sanctuaries in Alberta were dispensed with on September 31, 1930 and they were paid up

J. M. Roberts, Esq.,  
Secretary, Dept. of the  
Interior, Ottawa.

to the Inuit that date. Subsequently the ex-heretals  
of Mary Island, Miguelan, Ministik and Pukwai Lakes and  
Santharic have been appointed Honorary Game Officers  
under the Migratory Birds Convention Act, without remunera-  
tion.

I can only repeat my sincere appreciation  
that the equipment in question be transferred to the  
Provincial authorities without charge, and that the  
Province will be in a position to take the necessary  
steps to deal with the former equipment.

Memorandum:

September 3rd, 1931.

Mr. E. H. Finlayson. (5527000-Alberta Equip.)

Some time ago your Mr. MacDonald handed me a letter dated 17th April, addressed by Mr. C. H. Morse to yourself, together with lists showing surplus Forestry Service moveable equipment available for transfer to the province of Alberta; also a list showing office furniture, books, small drafting sets, etc., taken over by the province of Alberta. We have divided the latter list into two, the first including office furniture and typewriters, only, copies of which have been sent to the Department of Public Works to complete the arrangement of sale with the province; the other list contains books and office desk equipment, and small drafting equipment; two copies of this are enclosed, and I should be glad if you would have your local officer complete the sale of this equipment to the province.

I am also enclosing, for your information, a copy of the list sent to the Department of Public Works.

The present estimated values shown on the list of books, office desk equipment and small drafting equipment, etc., may be considered rather high, but your local officer may be given authority to revise these values if he considers it necessary.

With reference to the Forestry surplus field equipment list, Mr. MacDonald and Mr. Bailey discussed this and it was decided that a number of items on page 4, consisting of repeating coils, telephone condensers, and on pages 10 and 13, certain other telephone equipment which was considered a part of the permanent equipment, should be deleted from these lists. I am therefore having these lists checked over and will return them to you in the course of a few days.

Secretary.

Dear Sir,- (4527000-Alt.-Equip.)

With further reference to our letter of May 2nd, last, enclosing a list showing equipment of the Parks Branch used in connection with the following bird sanctuaries in Alberta:-

Ministik Lake  
Miquelon Lake  
Lac la Piche  
Birch Lake  
Pukowki Lake  
Many Island Lake

this has possibly been overlooked by you, as no reply has been received.

I have now been advised by Mr. Harkin that the services of the former caretakers of the sanctuaries in Alberta were dispensed with on the 1st December, 1930, and they were paid up to and including that date. Subsequently, the ex-caretakers at all these reserves, except Birch Lake and Lac la Piche, were appointed as Honorary Game Wardens under the Migratory Birds Convention Act, without remuneration. It is therefore likely that they will still have the equipment in their possession, and there should be no difficulty in the province locating it. Will you please advise me if you wish to purchase any of this equipment, and what you are prepared to offer; if you do not require it, it will be necessary for us to make other arrangements for its disposal.

Your obedient servant.

John Harvie, Esq.,  
Acting Deputy Minister,  
Department Lands and Mines,  
Edmonton, Alberta. Secretary.

Dear Sir,- (5527000-Alberta Equipment)

In accordance with a previous agreement, I am enclosing lists, in duplicate, showing surplus Forestry office equipment which has been taken over by the province of Alberta. The lists show the estimated present value of the equipment at the time it was taken over by the province. The valuations were, in most instances, made by our own officers. We shall, however, be satisfied with any settlement which you may make with the province. Your Western representatives are, no doubt, more familiar with the value of this equipment than ours.

You will notice that the lists of office equipment include, in some instances, typewriters and equipment which has been purchased by our department, but we are turning this over along with the other equipment and shall be glad if you will deal with it as though it had been purchased by your department. The lists enclosed are as follows:-

Memorandum:

Mr. L. L. Inlayson. (5527000- lta.- Equip.)

With further reference to my memorandum of the 3rd instant, respecting Forest Service moveable equipment, I have checked over the list furnished by your Mr. Morse on the 17th April last, and have also discussed this with your Mr. MacDonald, and it was decided that the following items should be deleted from the list:-

Page 1: 23 batteries, D.F.S.C.  
58 batteries, D.F.S.C.  
97 batteries, D.F.O.  
19 batteries, D.F.S.  
15 axes, marking, F.S.

These articles were all made specially for the Dominion Forest Service, and would be of no value to the Provincial Service.

5 automobiles; cost \$3,130.94; these were sold by the province and the amount received paid into this department.

Page 2: 26 extension bells.

Page 4: 5 repeating coils; cost \$38.02.  
26 condensers, telephone; cost \$4.01.

Page 8: The scow 'Pilgrim'; value \$1,132.15; the engine from this scow was sold by the province for \$10.00 and the money paid into this department. I do not know whether the province is taking over the scow, or not, and have therefore deleted the cost until such time as we hear further from your Western Officer.

Page 10: 121 protectors, telephone; cost \$106.93;  
22 rods, ground, portable; cost \$1.75;

Page 13: 5 telephones, lookout; cost \$177.25;  
1 telephone mine; cost \$22.00;  
79 telephones, wall; cost \$1,754.21;  
15 telephones, desk; cost \$323.15;  
5 telephones, test set, cost \$33.05.

Page 15: All equipment shipped to Mr. Truesdale;  
cost \$512.92

This leaves the grand total of the equipment shown on this list as \$133,200.64, 25% of which would be \$33,300.71.

The original list, together with Mr. Morse's

-2-

memorandum to you of the 17th April last, your Reference Number 393125, are returned herewith. I should be glad if you would let me have, for record purposes, a copy of the list of field equipment. It will not be necessary to furnish the list of office desk equipment, etc., as we have made these from the lists now being returned.

Secretary.

MEMORANDUM: Mr. J. M. Roberts,

Attention Mr. Bailey

With reference to our conversation of yesterday afternoon re preparation of property lists for Alberta by reserves, the following is a wire received from the officer in charge of our Calgary office this morning:

"Can compile list of property from summary statement enclosed your letter April second and individual lists enclosed your letter July tenth last year Stop Neither list appears to be accurate and should be checked against nineteen thirty inventories, our copies of which are in your office Stop Checking and retyping these lists for individual reserves would take at least two weeks and probably longer as Mr. Finlayson will require considerable stenographic help when here."

Will you please give me a call about this as soon as you can.

## Memorandum:

(48932-A)  
Mr. D. Roy Cameron. (5527000-Alta.-Equip.)

With reference to the Forest Service surplus moveable equipment available for transfer to the province of Alberta, a list of this equipment was furnished to Mr. Harvie on the 17th April last by your Mr. Morse. This list, however, did not separate the property according to Reserves, and on the 5th instant Mr. Harvie wired requesting that he be furnished with lists of equipment according to Reserves. You wired Mr. Holman to see if this could be prepared in his office and how long it would take. He replied on the 8th instant as follows:-

"Can compile list of property from summary statement enclosed your letter April 2nd and individual lists enclosed your letter July 10th last year. Neither list appears to be accurate and should be checked against 1930 inventories, our copies of which are in your office. Checking and retyping these lists for individual reserves would take at least two weeks and probably longer as Mr. Finlayson will require considerable stenographic help when here."

In view of the fact that Mr. Holman had not sufficient stenographic help to prepare the lists, it was decided that they should be prepared at Ottawa, and Mr. Gillespie of this branch and Miss Esdale of the Forest Service have now completed these lists, three copies of which are enclosed:- In preparing the lists they have taken into consideration:-

1. The summary prepared by your Mr. MacDonald, a copy of which was forwarded to Mr. Morse on the 2nd April last;
2. The list compiled by Mr. Morse and handed to Mr. Harvie on the 17th April last.
3. All forms 100 and 103 received up to date;
4. All equipment referred to in my memorandum of the 4th instant.

The lists as they now stand are, we believe, as nearly accurate as can be prepared from the Ottawa records, and apparently take care of all the equipment which the Forest Service wish to retain for their own use. As I am informed, these lists do not include anything which was not already on the list forwarded to Mr. Morse on the 2nd April last.

All office furniture has been deleted from these lists and a list of the same forwarded to the Department of Public Works to arrange for the sale to the province. (See our memorandum of the 3rd instant.) We have also deleted all books, office desk furniture, small printing equipment, etc., and included them in a separate list, two copies of which were forwarded to you on the 3rd instant - one for transmission to your Calgary office. It was the intention that your Mr. Holman would arrange with the provincial authorities the prices to be charged for this equipment, as it was felt that those shown on the list will require some revision. I notice in looking over your file that these have not yet been forwarded to Mr. Holman.

I think it advisable that two copies of the enclosed list should be forwarded to Mr. Holman to be checked and revised, where necessary, before being handed to Mr. Harvie. This office should be advised of any changes which he may make. I am today advising Mr. Harvie that the list of Forest Service equipment available for transfer to the province has been prepared and is being forwarded to Mr. Holman to be checked before being handed to him.

Assistant Secretary,

September 29th, 1931.

Dear Mr. Harvie,-

With reference to the request contained in your telegram of the 5th instant, to be supplied with lists showing the Forest Service moveable equipment, by reserves, it has taken some time to have this prepared, but the lists have now been completed and are being forwarded to Mr. Holman, at Calgary, with instructions to check these over and hand one copy to you.

We shall appreciate any action which you can take to have final settlement made as quickly as possible.

Yours very truly,

Deputy Minister.

Acting Deputy Minister,  
Department Lands and Mines,  
Edmonton, Alberta.

Memorandum:

The Deputy Minister. (20 Sec.-SME)

With reference to the attached memorandum respecting equipment formerly used by the supervisory mining engineer, at Calgary and Turner Valley, the equipment at Turner Valley consisted of beds, bedding, etc., and some office furniture, the latter belonging to the Department of Public Works; the former has been transferred to the Department of Mines under authority of Government Salvage Minute No.6173. Mr. Hume was advised to this effect.

The equipment in the Calgary Office consists of laboratory equipment, Geological equipment, camp equipment, surveying and drafting instruments, and office furniture.

Respecting the laboratory and geological equipment, on the 1st June last you gave instructions as follows:-

"The Minister has approved of the suggestion made in Mr. Ross' memorandum of the 29th ultimo, attached hereto, to the effect that this material should be stored in part of the space now occupied.

the idea being that if sold it would likely bring a very small part of what the equipment had originally cost, and that if left intact it could still be used by the Chemists of the Department of Mines, as occasion demanded. Subsequently, a letter was received from Mr. McLeish, Director of Mines, asking permission to make use of the laboratory, and I understand they have been doing so this summer. I was, however, in telephone communication with him this morning and he advised that the use of the laboratory and equipment at Calgary by the Department of Mines was only of a temporary nature, covering the present year, only, and that they had no plans for next year's work in this field, but if they do carry on work in that field Mr. McLeish is quite sure that they will be able to make a satisfactory cooperative arrangement with the provincial authorities, should they take over our laboratory equipment. He also expressed the opinion that if we have any intention of disposing of the equipment it would be to our advantage to sell to the province. The same would apply to the equipment already transferred in Turner Valley.

Respecting camp equipment, etc., at Calgary, Mr. Hume reported that Mr. C.C. Ross desires to purchase part of this. However, the department is in constant need of equipment of this kind and this, if surplus, should be shipped to the Secretary's Branch, Ottawa, to be re-issued upon requisition.

The surveying and drafting instruments, we have a list of at Calgary. There is not much of this equipment at Calgary and no doubt it could all be used at Fort Smith, as suggested in Mr. Hume's memorandum. I would suggest that before having it shipped to Ottawa to be overhauled, a statement be secured as to its condition.

The Department of Public Works has already been advised of the surplus office furniture.

A statement of the laboratory equipment has already been prepared and sent to Mr. Hume to have checked in Calgary by Mr. Steele. A further list of miscellaneous equipment was prepared and sent to Mr. Hume on the 19th ultimo to have accounted for by the Calgary Office. This equipment had been shown on the property returns for 1924, 1925, and 1926, but not on the 1930 return. Until these inventories are checked and returned, and the branch has declared what is surplus, I do not think we are in a position to deal with Mr. Harvie. If the department now wishes to dispose of the laboratory equipment it seems to me it would be necessary to refer it to the Minister, as he previously gave instructions to have it retained. A wire might be sent to Mr. Harvie, as suggested by Mr. Hume, enquiring as to just the particular equipment in which the province is interested.

Respectfully submitted,

Assistant Secretary.

Memorandum.-

Mr. June.

As suggested, you might wire Colonel Steel to get in touch with Mr. Harvie and find out what equipment the Province wants. At the same time Colonel Steel might be requested to send in a complete list of all equipment showing the condition of each article, as well as a list of his own requirements.

In this connection I am enclosing a memorandum of the 7th instant, submitted by Mr. Bailey, which supplies additional information with respect to this equipment.

Deputy Minister.

Memorandum:

H. E. Hume, Esq.,  
Chairman,  
Dominion Lands Board.

With reference to Mr. Steel's letter of 13th October, enclosing copy of a letter from Mr. Calder, arising out of your telegram of the 9th, I wish to say that I consider Mr. Steel's contention that he needs the furniture a sound one. To deprive him of these articles would very much handicap his work.

In regard to the microscope, this has seen very considerable service and the trouble with the ratchet referred to was in evidence at least five years ago. The valuation placed upon it by him is a good one. I have no means of judging off hand whether the current price of these articles is the same as when this particular microscope was purchased.

Dear Mr. Harvie, - (5527000-Alta. Equipment)

With further reference to your enquiry about surplus equipment in the Office of the Supervisory Mining Engineer, at Calgary, your Mr. Calder has now advised us that the articles required are as follows:-

- 1 set plan filing drawers;
- 1 drawing table with drawers;
- 3 bookcases;
- 1 microscope, at present on loan to the province.

The first three items, I am informed, are still required by our Mr. Steel. The microscope at present on loan to your department is surplus to our requirements. The original cost was \$166.50. We would be prepared to sell this to you on the same basis as the other surplus equipment, viz: 25% of original cost.

Yours very truly,

(5527000-Alta. Equip.)

I have your memorandum of the 19th instant, respecting the disposal to the province of Alberta of a boat formerly used in connection with one of the bird sanctuaries.

It would be quite in order to allow the former caretaker to hand this boat over to Mr. Todd, Director of Fisheries, and accept his receipt therefor. It is hoped that the Provincial Government will take over all of the equipment formerly used on the Migratory Bird Sanctuaries. We are again writing them today in this connection.

Assistant Secretary.

October 28th, 1931.

Dear Mr. Harvie,- (5527000-Alta. Equipment)

Please refer to our letters of May 2nd and September 3rd, last, enclosing a list showing equipment of the Parks Branch used in connection with Bird Sanctuaries in Alberta. We stated that we were willing to dispose of this at a very small valuation, viz: \$289.40. Up to the present no reply has been received stating what your intention is in this regard.

I am now advised by the National Parks Branch that your Mr. R. T. Todd has requested one of our former caretakers to hand over to the province certain equipment. I do not know in just what sanctuary this equipment is used, but we have instructed the Parks Branch to hand over the equipment and secure a receipt therefor. I would, however, be pleased to receive from you a letter stating what your intentions are in regard to all of the equipment, so that we may take steps to either hand it over to you or dispose of it in some other way.

Yours very truly,

Deputy Minister.

Mr. D. Roy Cameron. (48932-A)  
(5527000-Alta. Equip)

I have your memorandum of the 31st ultimo, enclosing a copy of a letter received from H.L. Holman, respecting the surplus moveable equipment available for transfer to the province of Alberta. It is noted that you have retained for your own use all of the equipment on charge to the Alberta Inspection Office. This is quite satisfactory, as it was understood that the department would retain whatever equipment was considered necessary for our continuing service.

I have also noted that the cost of the Marine Engine, Superfour Model, Departmental No. 765-B, on page 32 of the inventory, was included in the cost of the boat 34' x 6'6", shown on page 31 of the inventory. We have, therefore, deleted the entry on page 32.

With reference to the cost of two scows, shown on page 33 of the inventory, Mr. Holman states that one was sold in 1930 and the other in 1931. We do not appear to have any record of these transactions except that on the 22nd July last you advised me that the provincial authorities had sold the Ford Marine Engine in the patrol boat "Wilgrim", No. 723, for \$50.00. I did not understand that the sale had included the hull, as the total cost of this scow is shown on page 33 of your inventory to have been \$1097.40. I shall await further advice from you respecting the sale of these scows before amending our inventory of the equipment available for transfer to the province.

Dear Mr. Harvie, - (5527000-Alta. Equip.)

In accordance with the agreement arrived at in conference at Ottawa last May, you were furnished with a statement showing surplus Forestry moveable equipment available for disposal to the province. The total original cost of the equipment included in this statement was shown as \$134,586.00.

In my letter of the 21st July last it was stated that the total original cost of the equipment available for transfer was \$33,646.59. It would be apparent to you, however, that this actually represented only 25% of the original cost, which this department considered would be a fair valuation of the equipment available for transfer.

Later you requested a statement showing the distribution of the equipment according to reserves. This was subsequently prepared and forwarded to our Mr. Holman, at Calgary, who advised that it had been mailed to you on the 7th October last. You will, therefore, notice from this list that some slight changes have been made, and that the total original cost of the equipment to be transferred had been reduced to \$127,612.45, 25% of which would equal \$31,953.12.

All of this equipment has been available for the use of the province for practically the past eighteen months, and no doubt a great part of it has been in actual use. We should, therefore, appreciate an early settlement.

Yours very truly,

Deputy Minister.

Mr. John Harvie,  
Deputy Minister,  
Department Lands and Mines, Edmonton.

December 12th, 1931.

Dear Mr. Harvie,- (5527000-Alta. Equip.)

Please refer to my letter of the 6th ultimo, enclosing an account for \$305.25 for loose leaf binders and leaves, shipped by Mr. Stafford while he was recently in Ottawa.

No acknowledgment of these has, as yet, been received.

In our letter of the 21st July last it was inadvertently stated that the total original cost of the equipment available for transfer was \$133,646.59. SUMMARY

BRITISH COLUMBIA

Surplus moveable equipment has been sold to the province of British Columbia for 25% of its original cost, viz: \$16,687.15, and has been paid for.

ALBERTA

The province of Alberta was advised that the Forest Service surplus moveable equipment would be transferred at a fair valuation, which this department considered to be 25% of the original cost, if all were taken, or 40% of the original cost if a selection of equipment for transfer to the province have been prepared and furnished to the province. These show the original cost of Forest Service equipment to be \$17,812.45, 25% of which would be \$4,453.12. No settlement, or offer, has been received from the province.

Also, small amounts are outstanding on account of the transfer to the province of equipment on bird sanctuaries, and for loose-leaf binders, etc., shipped from Ottawa.

Office furniture taken over by the province has been listed and turned over to the department of Public Works for sale. I understand that no settlement has yet been made by the province.

MANITOBA

The province was advised that the Forest Service moveable equipment would be sold to the province, and a letter was forwarded to Major Barnett by our Deputy Minister, stating that he was enclosing a memorandum prepared by the secretary which set out this department's views. In this it was clearly stated that the department would be 25% of the original cost if the equipment were considered a fair valuation of the equipment. Inventories have been furnished to all were taken, or 40% if a selection of the equipment were made. The province of Manitoba, as follows:-

|  |             |
|--|-------------|
| Forest Service surplus moveable equipment; original cost \$22,055.00; ...  | \$20,514.01 |
| Estimated value Forest Service office desk stationary, books, etc. ....  | 1,252.36    |
| (No offer or settlement has yet been made by the province.)  |             |
| Surplus steel equipment shipped from Ottawa.....   | 2,345.00    |
| Office furniture taken over by the province listed and an inventory forwarded to Department of Public Works to obtain settlement; estimated value.. (I understand that no settlement has yet been made.) | 2,934.92    |

Manitoba

All office furniture taken over by the province has been listed and inventories forwarded to the Department of Public Works to complete the sale to the province. No payment has yet been made.

Surplus moveable equipment formerly belonging to the Forest Service, Supervisory Mining Engineer, and Crown Timber Agent, to be sold to the province at 25% of its original cost. The province stated that they were unable to accept our valuations on this basis. It was then arranged that a joint appraisal should be made by representatives of the Forest Service and the Provincial Government, with the following result:-

|  |          |
|--|----------|
| Supervisory Mining Engineer equipment..                  | 264.80   |
| Forestry surplus equipment, and Crown Timber Office..... | 8,647.31 |

No settlement, or offer, has been received from the province.

Respectfully submitted,

Assistant Secretary.

- Oct. 16/31. A follow-up letter was addressed to Mr. Attwood, asking when the department might expect a settlement for the Forest Service equipment.
- Nov. 2/31. A letter was received from Mr. Attwood, addressed to the Deputy Minister, stating that he had received from Colonel Stevenson valuations made by joint appraisal, and would write again shortly concerning this matter.
- Jan. 15/32. The Deputy Minister wrote Mr. Attwood, stating that we had not heard from him respecting the purchase of Forest Service moveable equipment, and requesting him to give the matter his immediate attention.
- Jan. 14/32. The Deputy Minister of the Interior wrote to Mr. Attwood enclosing an inventory of Forest Service small office desk equipment, books, and drafting instruments. The values had been agreed to by Mr. Tunstall and Colonel Stevenson; total value 178.03. He was advised that this valuation had been accepted by the Department of the Interior and requested to forward his cheque in settlement.

Mr. Attwood was also forwarded an inventory of equipment belonging to the Supervisory Mining Engineer at the Mas. a joint appraisal of the equipment having been made by Mr. Tunstall and Mr. Cole of the provincial service; total value 264.80, which has been accepted by the Department of the Interior. Mr. Attwood was requested to advise if the province were willing to pay this amount, as, otherwise, we would have to make other arrangements for its disposal.

---

With reference to the suggestion made by Premier Anderson in his letter to the Minister of the Interior, dated January 11th, 1932, to the effect that payment for equipment should be deferred until such time as the Commission sits to determine the further compensation, if any, which should be paid to the province of Saskatchewan on the transfer of the resources, I beg to say that the proposed Commission will have nothing whatever to do with deciding whether the equipment in question is to be paid for, or the valuation thereof. The amount to be paid for this equipment should be agreed to now, and when this has been decided Premier Anderson's request to have the payment deferred until after the finding of the proposed Commission might then be given consideration.

This condition would also apply to the province of Alberta, but not to Manitoba, as they are receiving no further consideration.

---

May 18/31. A conference held in the office of the Assistant Deputy Minister, at which Manitoba was represented by Honourable J.G. McKenzie and Mr. C.H. Attwood. They were told that the department considered that a fair valuation of the equipment would be 25% of its original value if all were taken, or 40% if a selection were made, and that these terms had already been accepted by the province of British Columbia. After discussion, the following letter was written to Mr. McKenzie by our Minister:-

"Referring to our discussion, I may say that I agree with you that the surplus moveable forestry equipment in the province of Manitoba, which is being transferred to your control, should be valued by Mr. Munstrell and Colonel Stevenson."

This was concurred in by Mr. McKenzie.

May 21/31. An inventory was forwarded to the Department of Public Works, showing the estimated value of office equipment formerly belonging to the Dominion Lands Administration and Supervisory Mining Engineer, taken over by the province of Manitoba. The estimated value of this was \$3,694.04.

May 22/31. An inventory of the equipment formerly belonging to the Crown Timber Agent and the Supervisory Mining Engineer, at the Mas, was referred to Mr. Attwood, with the suggestion that an appraisal should be made by their Colonel Stevenson and Mr. Munstrell of our Forest Service.

July 2/31. An inventory was forwarded to the Department of Public Works of the Forest Service office furniture taken over by the province of Manitoba. The total estimated value of this was \$1,368.45.

Aug. 14/31. A letter was received from Mr. J.H. Attwood, addressed to the Secretary of the Department, stating that the appraisal of the Forest Service equipment was under way and when completed he would advise this department what the province were prepared to offer.

Aug. 25/31. The Forest Service reported that Mr. Munstrell and Colonel Stevenson had completed the joint appraisal of the forestry equipment and valued the same at \$8,647.21. The Honourable J.G. Murphy approved of the sale of the equipment for this amount and the Government Contracts Supervision Committee issued Minute No. 6202, authorizing the sale to the province.

Sept. 15/31. Mr. Attwood was advised by the Deputy Minister of the Interior that authority for the sale of the Forest Service surplus moveable equipment (\$8,647.21) had been given, and he was requested to forward a cheque in payment of the equipment.

- Aug. 14/31. Major Barnett wired offering \$2,500 for certain surplus steel equipment in the Norlita Building. One or two articles included in the list of equipment were retained by this department. The valuation was revised accordingly, and Major Barnett advised that we would accept his offer, making the necessary reduction for the equipment retained. The value of the equipment sold was \$2,325.00. To date, this has not been paid for.
- Dec. 15/31. A letter from the Deputy Minister to Major Barnett, calling attention to the inventories of Forest Service moveable equipment which had been forwarded to him, the total original cost of which was \$2,056.04. It was stated that the department considered a fair value for this equipment would be 25% of the original cost if all were taken, or 40% of the cost if the province made a selection. It was stated that we would appreciate an early settlement.
- Dec. 15/31. Major Barnett advised that no settlement had been made in connection with the steel equipment shipped from the Norlita Building, or for the Forestry Office books, drafting instruments, etc.

MINISTERS

- May 5/30. Memorandum received from the Acting Deputy Minister by the Secretary, stating that he had had a conference that day with the Honourable D. J. McKenzie, and that it had been agreed that an inventory would be prepared of Forest Service surplus moveable equipment and the value of the same would be settled by arbitrators.
- July 11/30. Wire from Mr. Cory to Hon. D. J. McKenzie, stating that the department would lend our equipment for the same period as the staff was loaned and in the meantime would settle just what part of this they were willing to take over and pay for.
- Mar. 31/31. Memorandum submitted by the Secretary to the Deputy Minister, recommending that the Forest Service surplus moveable equipment - the total original cost of which was, according to an inventory, \$42,835.67 - should be sold for 25% of its original cost, or a lump sum of \$10,000. This was approved by the Minister, and Mr. C. H. Attwood, Deputy Minister of Mines and Natural Resources, was advised accordingly.
- May 5/31. Mr. Attwood replied, stating that it was impossible to accept the valuations placed on the equipment.

May 13/31. Department of Public Works were furnished with an inventory of Dominion Lands Office equipment taken over by the province of Saskatchewan. The estimated value of the same was \$16,348.92.

(On September 10th, 1931, Major Barnett wrote the Department of Public Works offering them a lump sum of \$10,000 for this equipment. This was referred to our department, and we told the Department of Public Works that in our opinion they would be well advised to accept this offer.)

May 18/31. Conference in the Assistant Deputy Minister's Office at which Major Barnett represented the province of Saskatchewan. The provincial delegates were told that the surplus equipment would be made available for sale to the provinces, and that the department considered a fair valuation would be 40% of the original cost if all were taken over. A decision was made, and that the province of Saskatchewan had already accepted the basis of settlement.

May 20/31. A letter was written firming the understanding, viz: that an inventory of the equipment to be transferred would be forwarded to him at as early a date as possible. That he should have this inventory checked and advise the department of his offer for the equipment shown thereon.

June 29/31. We received from Major Barnett addressed to the Secretary, asking for equipment classified as reserves.

July 10/31. We forwarded to the Secretary an inventory showing equipment taken over by Saskatchewan; total estimated value \$2,934.92.

x x At your earliest convenience will you please let me have a list of those accepting employment in your service, and also say whether you desire to take over, and pay for, any of our equipment at its present value, etc., etc.

To which Premier Anderson replied:-  
"Your wire received. Please rush list Federal Civil servants, with duties, salary, location, working re natural resources in Saskatchewan. I shall advise as soon as possible re number we wish to retain; also re offices in use.

July 26/30. Mr. Cory wired Hon. Thomas W. Molloy, Deputy Minister of Labour and Industries, in part as follows:-  
"Your wire 18th. When resources transferred becomes effective let us, proximo, this department prepared to grant Saskatchewan Government's request for loan for two months of our employees who have been engaged on natural resources administrative work in Saskatchewan, on understanding Saskatchewan Government reimburse Dominion, etc., etc.

We will also lend Saskatchewan our equipment for same period, and in the meantime will settle just what part of this Saskatchewan is willing to take over and pay for, etc.

The same day Mr. Molloy wired Mr. Cory as follows:-

Your telegram 18th respecting staff, supplies, and office space, being available to this province for two months submitted today to Premier. Authorized to say Saskatchewan Government pleased to accept conditions set out in your telegram, and will expedite completion of transfer, etc., etc.

Apr. 17/31. Letter from the Deputy Minister to Major Barnett respecting Forest Service equipment, in which it is stated in part as follows:  
"I have had the whole situation carefully gone into, and am enclosing a memorandum prepared by the Secretary of the department, which sets out the views of this department in regard to moveable equipment, consisting of all field equipment used for fire fighting, transport, camp equipment, etc.

The Secretary's memorandum definitely stated that a fair valuation of the equipment available for transfer to the province was considered to be 25% of its original cost provided all were taken, or 40% of the original cost if a selection were made.

- May 18/31. A conference in Assistant Deputy Minister's Office at which Mr. Harvie represented Alberta; Major Barnett, Saskatchewan; Mr. Pittwood, Manitoba; Mr. Finlayson, Mr. Cameron, and myself were also present. At this conference the provincial representatives were told that this department considered that a fair valuation of the property to be turned over to the provinces would be 25% of the original cost if all were taken, or 40% if a selection were made. They were advised that these terms had been accepted by the province of British Columbia.
- May 19/31. A letter was written to Mr. Harvie confirming the understanding reached at the conference in so far as Alberta was concerned, viz:
- That when the joint inventory of forestry equipment was completed an account of the same would be rendered to the province. This understanding was agreed to by Mr. Harvie.
- June 6/31. A letter was sent to the Department of Public Works, enclosing list of furniture taken over by the province of Alberta. The total value according to this was \$12,137.11.
- July 21/31. A letter from the Deputy Minister to Mr. Harvie, reminding him that at the conference (May 18th) he had been informed that this department would sell surplus equipment at a fair valuation, which this department considered to be 25% if all equipment were taken, and 40% if a selection were made.
- Sept. 5/31. Mr. Harvie requested to be furnished with an inventory of forestry equipment classified according to reserves. This was prepared and sent on September 29th to Mr. Holman, Calgary, who checked the same, revised where necessary, and forwarded it to Mr. Harvie on October 7th. Total original cost of Forest Service surplus moveable equipment according to this list was \$127,812.48; 25% of this amount equals \$31,953.12.
- Mr. Holman advised that he and Mr. Siefgen, of the Alberta Forest Service, were preparing a list of small office equipment, books, instruments, etc., which were available for the province, and that a price would be mutually agreed upon. To date no copy of this list has been received.
- Dec. 10/31. A letter from the Deputy Minister to Mr. Harvie, pointing out that the province had had the use of the Forest Service equipment for practically 18 months, and that we would appreciate an early settlement. It was also pointed out that 25% of the original cost of the equipment would be \$31,953.12. No reply has been received to any of these communications.

ALBERTA

July 11/30. A wire from H.W. Cory to Premier Brownlee, stating, inter alia, that we would also loan the province our equipment for the same period as the staff was being loaned, and in the meantime the province would settle just what part of this equipment the province was willing to take over and pay for.

Sept. 26/30. A telegram from Premier Brownlee to H.W. Cory: "I understand you have agreed with Saskatchewan to permit use of equipment until January 1st, pending further conference as to final disposition. Could you negotiate same agreement this province", etc.

Mar. 30/31. Wire from Mr. John Harvie, Acting Minister of Lands and Mines, Alberta to H.W. Cory: "Department of Lands and Mines will need immediately necessary equipment for protection of forest fires, and with the equipment on hand in reserves, and with the equipment on hand in the district, surplus to requirements of the Interior, and which we may arrange for the purchase of additional equipment", etc.

Apr. 6/31. Wire from Mr. H. Cowatt to Mr. John Harvie: "Your wire 30th. Have forwarded complete inventory to C.H. Morse, who will prepare list fire fighting equipment available for transfer to Alberta. Surplus fire fighting equipment, etc., if desired, will be transferred immediately at fair valuation, amount to be determined by a conference earliest possible date."

Apr. 17/31. List referred to was furnished Mr. John Harvie by our Mr. Morse, Forest Service Officer, at Calgary.

Apr. 30/31. Wire from Mr. H. Cowatt to Mr. John Harvie, advising him of the original cost of equipment on all bird sanctuaries in Alberta, and stating that we were prepared to loan this over to the province on the basis of 10% of the original cost if all taken, or 40% if a selection made.

(On November 14th. letter from Mr. Harvie to Mr. Cowatt, stating that it was the intention of the province to take over this equipment, and that payment would be made at an early date. Letter from Secretary to Mr. Harvie, enclosing a copy of the list showing equipment on bird sanctuaries.

May 2/31.

The following is a brief summary of the exchange of correspondence with each of the provinces, on the subject of property transfer:-

BRITISH COLUMBIA

On April 17th the Honourable T.C. Murphy wired Honourable H.S. Lougheed, as follows:-

"Forest Service Moveable Equipment in the Railway Belt, C. MacKayden, District Inspector at Kamloops, will supply you with list of equipment available for transfer. Original cost of equipment was \$74,000, and we are prepared to turn this over to you on same basis as offered Manitoba, viz: 25% of cost if all taken, or 40% if a selection made."

On April 25th a reply was received from Honourable H. Cathcart, accepting our Minister's terms.

The inventory referred to was furnished, and was checked by Federal and Provincial Officers. The total original cost, according to this inventory, was reduced to \$66,748.61; 25% of this equals \$16,687.15, and payment of this amount was made by the province on the 4th August, 1931.

On May 7th, 1931, the Department of Public Works were furnished with a statement of office furniture taken over by the province of British Columbia.

On May 26th the Public Works Department advised that they had received a cheque from the province for \$2,273.30.

From the foregoing it will be seen that the only matter outstanding in connection with British Columbia is the preparation of a list showing office desk equipment, books, drafting instruments, etc., taken over by the province. The Forest Service have been requested to prepare this list. The amount involved will be small.

*Forest Service have advised that B.C. did not take over any of this equipment - see B.C. file June 11/32*

\* The transfer of the natural resources to the province was subject to reservation by Dominion under Clause 19 of Agreement, of, inter alia, any ungranted lands of the Crown upon which public money of Canada has been expended. Therefore, buildings and other improvements within Forest reserves and Fire ranges in Districts remain the property of the Dominion. While it is proposed that these buildings and other improvements should be transferred to the provinces, we are not asking the provinces to pay anything on this account at the present juncture. Nevertheless, this fact should be noted for consideration in discussions now pending re natural resources settlement.

Memorandum:

January 18th, 1952.

The Deputy Minister.

In response to your request I am submitting the following respecting the property which has been transferred, or is available for transfer, to the various western provinces as a result of the transfer of the natural resources.

PROPERTY

For convenience, the property has been divided into the following four classes, and the policy adopted is as follows:-

1. Permanent Improvements, or Non-Moveable Equipment, such as telephone lines, fencing, millinery, etc.

It was agreed that these should go with the forest reserves and fire burning districts, and, in the event of future negotiations, there would be a bookkeeping entry but no collection would be made from the provinces at present.

2. Moveable Equipment, consisting of all field equipment used for fire fighting, transport, camp equipment, etc.

This was to be sold to the provinces at a fair valuation, which this department considered would be 25% of its original cost if the provinces took over all of the equipment available for transfer, or 40% of the original cost provided they made a selection.

3. Office Furniture, consisting of desks, chairs, filing cases, etc.

Inventories of this equipment taken over by the provinces have been prepared and furnished to the Department of Public Works, who are to complete the sale to the provinces.

4. Office desk stationery, books, small drafting instruments, etc.

Inventories of this equipment have been prepared and a joint appraisal made by Federal and Provincial officers, and this department is endeavouring to arrange a settlement for the same.

Improvements, on

In February, 1931, there was loaned to the province of Alberta 20,000 small sample strata bags and 9,116 bottles, of which 1,008 have since been returned; also 240 trays. This property formerly belonged to the Supervisory Mining Engineer at the Pas.

This was all new equipment, and as it has not yet been returned I would suggest that a ledger account be opened up with the province in the office of the Financial Controller, and that these items be charged to that account as follows:-

On the 28th January last I wrote you at some length respecting the transfer of surplus Forestry moveable equipment. You acknowledged this and stated that you expected to go into this question within the next few days with the Minister of Lands and Mines, and would then write me more fully. Since that we have not heard from you.

We have now reached a satisfactory adjustment of this matter with all the other Western Provinces, and I am anxious to arrive at a settlement respecting this question with the province of Alberta.

Dear Mr. Bailey,

On the 10th January, 1934, I received from the Hon. Mr. J. A. G. Rees, Minister of the Interior, the following direct-

mailing opportunity within the next thirty days, the number of animals to be received from the Government of Alberta, five gross biological samples, and all as follows:

I replied stating that our office at Calgary had been instructed to look after the animals, on the understanding that they would be replaced. I am that a small portion of the animals would be returned to the Government, as shown in the attached statement, and not yet been accounted for.

As there is no immediate prospect of this Government returning the various articles, or anything as equivalent for them, as originally suggested. It must be mentioned that the animals were all sent out that they are being killed to you at the actual cost to this Government.

In February, of 1931, on request of the Honourable R.G. Reid, Minister of Lands and Mines for the province of Alberta, we loaned them some laboratory equipment, the total cost of which was \$697.62. The province at that time were agreeable to purchasing the equipment. However, Mr. Ross, who was then in the department, preferred that it should be replaced. It has not been replaced, nor do we now require the material.

On the 17th May last we wrote Premier Brownlee, suggesting that the province should pay for the equipment at the actual cost to this department. No reply has been received. I would suggest that an account with the province be opened up in the Financial Controller's Office and that this equipment be charged to the province.

Memorandum:

The Deputy Minister.

On the 17th of February, 1931, authority was granted for the loan to the Province of Alberta of one Leitz ore dissecting microscope, with the option of purchasing the instrument at 25% of the original cost of \$106.50. Although the matter was brought to the attention of the Deputy Minister of Lands and Mines, the instrument has not been returned, nor payment made, nor any word received as to the intention of the provincial authorities.

A request has been made by the Forest Service for one dissecting microscope for the use of the Winnipeg Office, and as we have none available in any branch of the Department, with the exception of the instrument on loan, I would recommend that the provincial authorities be requested to return the instrument, or remit payment for the same.

If you approve, perhaps the draft letter attached might be forwarded to the provincial authorities.

I am sure you are just as anxious to effect a satisfactory settlement of this matter as we are, and I think you will agree that the longer it is left unsettled, the more difficult a solution will become.

It is not that an immediate settlement of the account has been requested, for as I explained in my letter of the 20th January last a reasonable time will be given for settlement. What I want on this is an acknowledgment of the debt, and I think this is only business.

Dear Mr. Harvie,

(5527000 Alta. Equip.)

As the Dominion Forest Service are very anxious to secure a microscope similar to the one loaned some time ago to the Petroleum and Natural Gas Division, Edmonton, it would be appreciated if a reply might now be received to my letter to you of the 2nd ultimo, regarding this instrument.

Yours very truly,

Deputy Minister.

John Harvie, Esq.,  
Deputy Minister,  
Department of Lands and Mines,  
Edmonton, Alberta.

OTTAWA, November 2, 1912.

Memorandum:

*for file*

On the 24th of October last, Mr. [Name] advised that it was the intention of the [Name] Government to return the [Name] loaned since [Name] up to the Geological and Natural History Division, [Name].

[Name] papers relating to Alberta [Name] had only been placed in his hands a few days [Name] and he expected that the whole matter would be cleared up shortly.

Memorandum:

Mr. Timmerman.

Reference is made to your memorandum of the 14th of September last, your file no. 10046 For., regarding the dissecting microscope required by Mr. George Tunstall, District Forest Inspector, Winnipeg.

In connection with the instrument on charge to the Dominion Lands Administration, Calgary, but loaned to the Petroleum and Natural Gas Division of the Department of Mines, Edmonton, I now learn that this instrument is being acquired by the Province, and is, therefore, not available for transfer.

I am not aware of any microscope in any branch of the Department surplus to requirements and available for transfer to you. If Mr. Tunstall still requires a microscope it would be necessary to purchase one through the usual channel.

Assistant Secretary.

If this should not prove to be the case, however, I should be pleased if you could advise me as soon as convenient as I am submitting the lists today to my Head Office for approval.

In regard to the list of items to be retained by this Service, I may say that they contain only such items as we require for our continuing Service - text books, surveying equipment, etc. I would you to good effect to send the enclosed list of items properly to the Service concerned with instructions to check and call in collect to this office at such times as may be required.

Mr.

Under cover of this office letter of October 6th last, I forwarded to Mr. Harvey a list of property which was subsequently transferred to the Province of Alberta. As you are aware, this was only a partial list of the property on hand in the different offices in this Inspection District. Since that time I have been in correspondence with my local office regarding the division of all remaining items into two lists, one of which was to include all items to be retained by the Federal Service and the other all items available for transfer to the Provincial Service. These final lists are enclosed herewith.

The list as now submitted, together with the list already transferred, comprises all items of property formerly on hand in the hands of the Service taken over by the Province, with the exception of the following:

- (1) All such items as ranging rods, ranging poles, stencils, hand saws, etc. bearing the insignia of the Service.
- (2) All items of equipment and such items as bath-room fixtures, window blinds, lamps, etc. These items were considered as part of the permanent improvements of the reserves transfer and should, therefore, be transferred to the Province without charge. This includes a six H. Massey-Harris machine in the Northwest.
- (3) All office furniture and such items as typewriters, adding machines, etc. These articles belong to the Department of Public Works and the transfer of them to the Province is to be arranged by that Department.

You will please note that the list of property available for transfer to the Province includes certain items of field property which were inadvertently omitted from the list previously

Sir,

Under cover of this office letter of October 6th last, I forwarded to Mr. Harvie a list of property which was subsequently transferred to the Province of Alberta. As you are aware, this was only a partial list of the property on charge to the different offices in this Inspection District. Since that time I have been in correspondence with my Head Office regarding the division of all remaining items into two lists, one of which was to include all items to be retained by the Federal Service and the other all items available for transfer to the Provincial Service. These final lists are enclosed herewith.

The lists as now completed, together with the list already transferred, provide for every item of property formerly on charge to the units of the Service taken over by the Province, with the exception of the following:

- (1) All such items as branding irons, marking axes, stencils, badges, etc. bearing the insignia of this Service and, therefore, of no value to your Service.
- (2) All telephone equipment and such items as bathroom fixtures, window blinds, pumps, etc. These items were considered as part of the permanent improvements of the reserves transfer and should, therefore, be transferred to the Province without charge. This includes a six H.P. Massey-Harris engine on the Athabasca.
- (3) All office furniture and such items as typewriters, adding machines, etc. These articles belong to the Department of Public Works and the transfer of them to the Province is to be arranged by that Department.

You will please note that the list of property available for transfer to you includes certain items of field property which were inadvertently omitted from the list previously

DEPARTMENT OF THE INTERIOR

OFFICE OF THE SECRETARY.

OTTAWA, March 1, 1933.

Memorandum:

The Deputy Minister.

On the 27th ultimo I submitted to you a summary of the correspondence passing between this department and Premier Brownlee and officials of the Department of Lands and Mines, Alberta, with respect to Forestry Moveable Equipment taken over by the province of Alberta. No agreement has yet been reached in connection with the payment of this equipment. I suggested that the Department of Finance should be advised of the various transactions and requested to obtain a settlement or secure an acknowledgment from the province of their indebtedness, with a view to making a settlement later on.

Will you kindly advise me if any further action is necessary at this time.

Respectfully submitted,

Dear Sir,

Would you please make the following corrections on the list of property sent to you under cover of this office letter of the 22nd ultimo.

Under "Brazeau Forest", delete -  
1 Wagon, heavy \$20.00  
Under "Crowsnest Forest", delete -  
8 Drums, oil 8.00

It appears that the wagon was transferred by the Brazeau to the Athabasca and that Form 100 was outstanding at the time of the transferring of the resources, resulting in both reserves showing the same wagon. The drums should not have been shown on the property list at all. We have them charged on our "Oil and Gas Barrel Account". The total should be reduced by \$28.00 to cover these two items.

The Provincial Forester has drawn my attention to the following errors on the previous list, that is to say, the list prepared at your office and sent to me under cover of your letter of September 30th, 1931.

Under "Bow River Forest"

5 Horses, pack \$125.00  
(These horses are the ones transferred to the Topographic Surveys at Golden, B.C. and subsequently lost.)

Under "Edmonton Fire Ranging District"

|                                 |                 |
|---------------------------------|-----------------|
| 50 Bags pack water man @ \$7.85 | \$392.50        |
| 1 Bit brace                     | 1.00            |
| 40 ft. cable $\frac{1}{4}$ inch | 5.00            |
| 1 Can, measuring                | 6.50            |
| 1 Chamois                       | 1.24            |
| 2 Chisels cold @ .60            | 1.20            |
| 2 Kettles stew granite @ 1.25   | 2.50            |
| 2 Kettles tea tin @ 1.00        | 2.00            |
| 1 Paddle canoe                  | 2.00            |
| 1 Saw hack                      | 1.00            |
| 86 Shovels SH @ 1.60            | 137.60          |
| 1 Tub wash                      | 1.50            |
| 1 Shovel stove (McMurray)       | .50             |
|                                 | <u>\$554.54</u> |

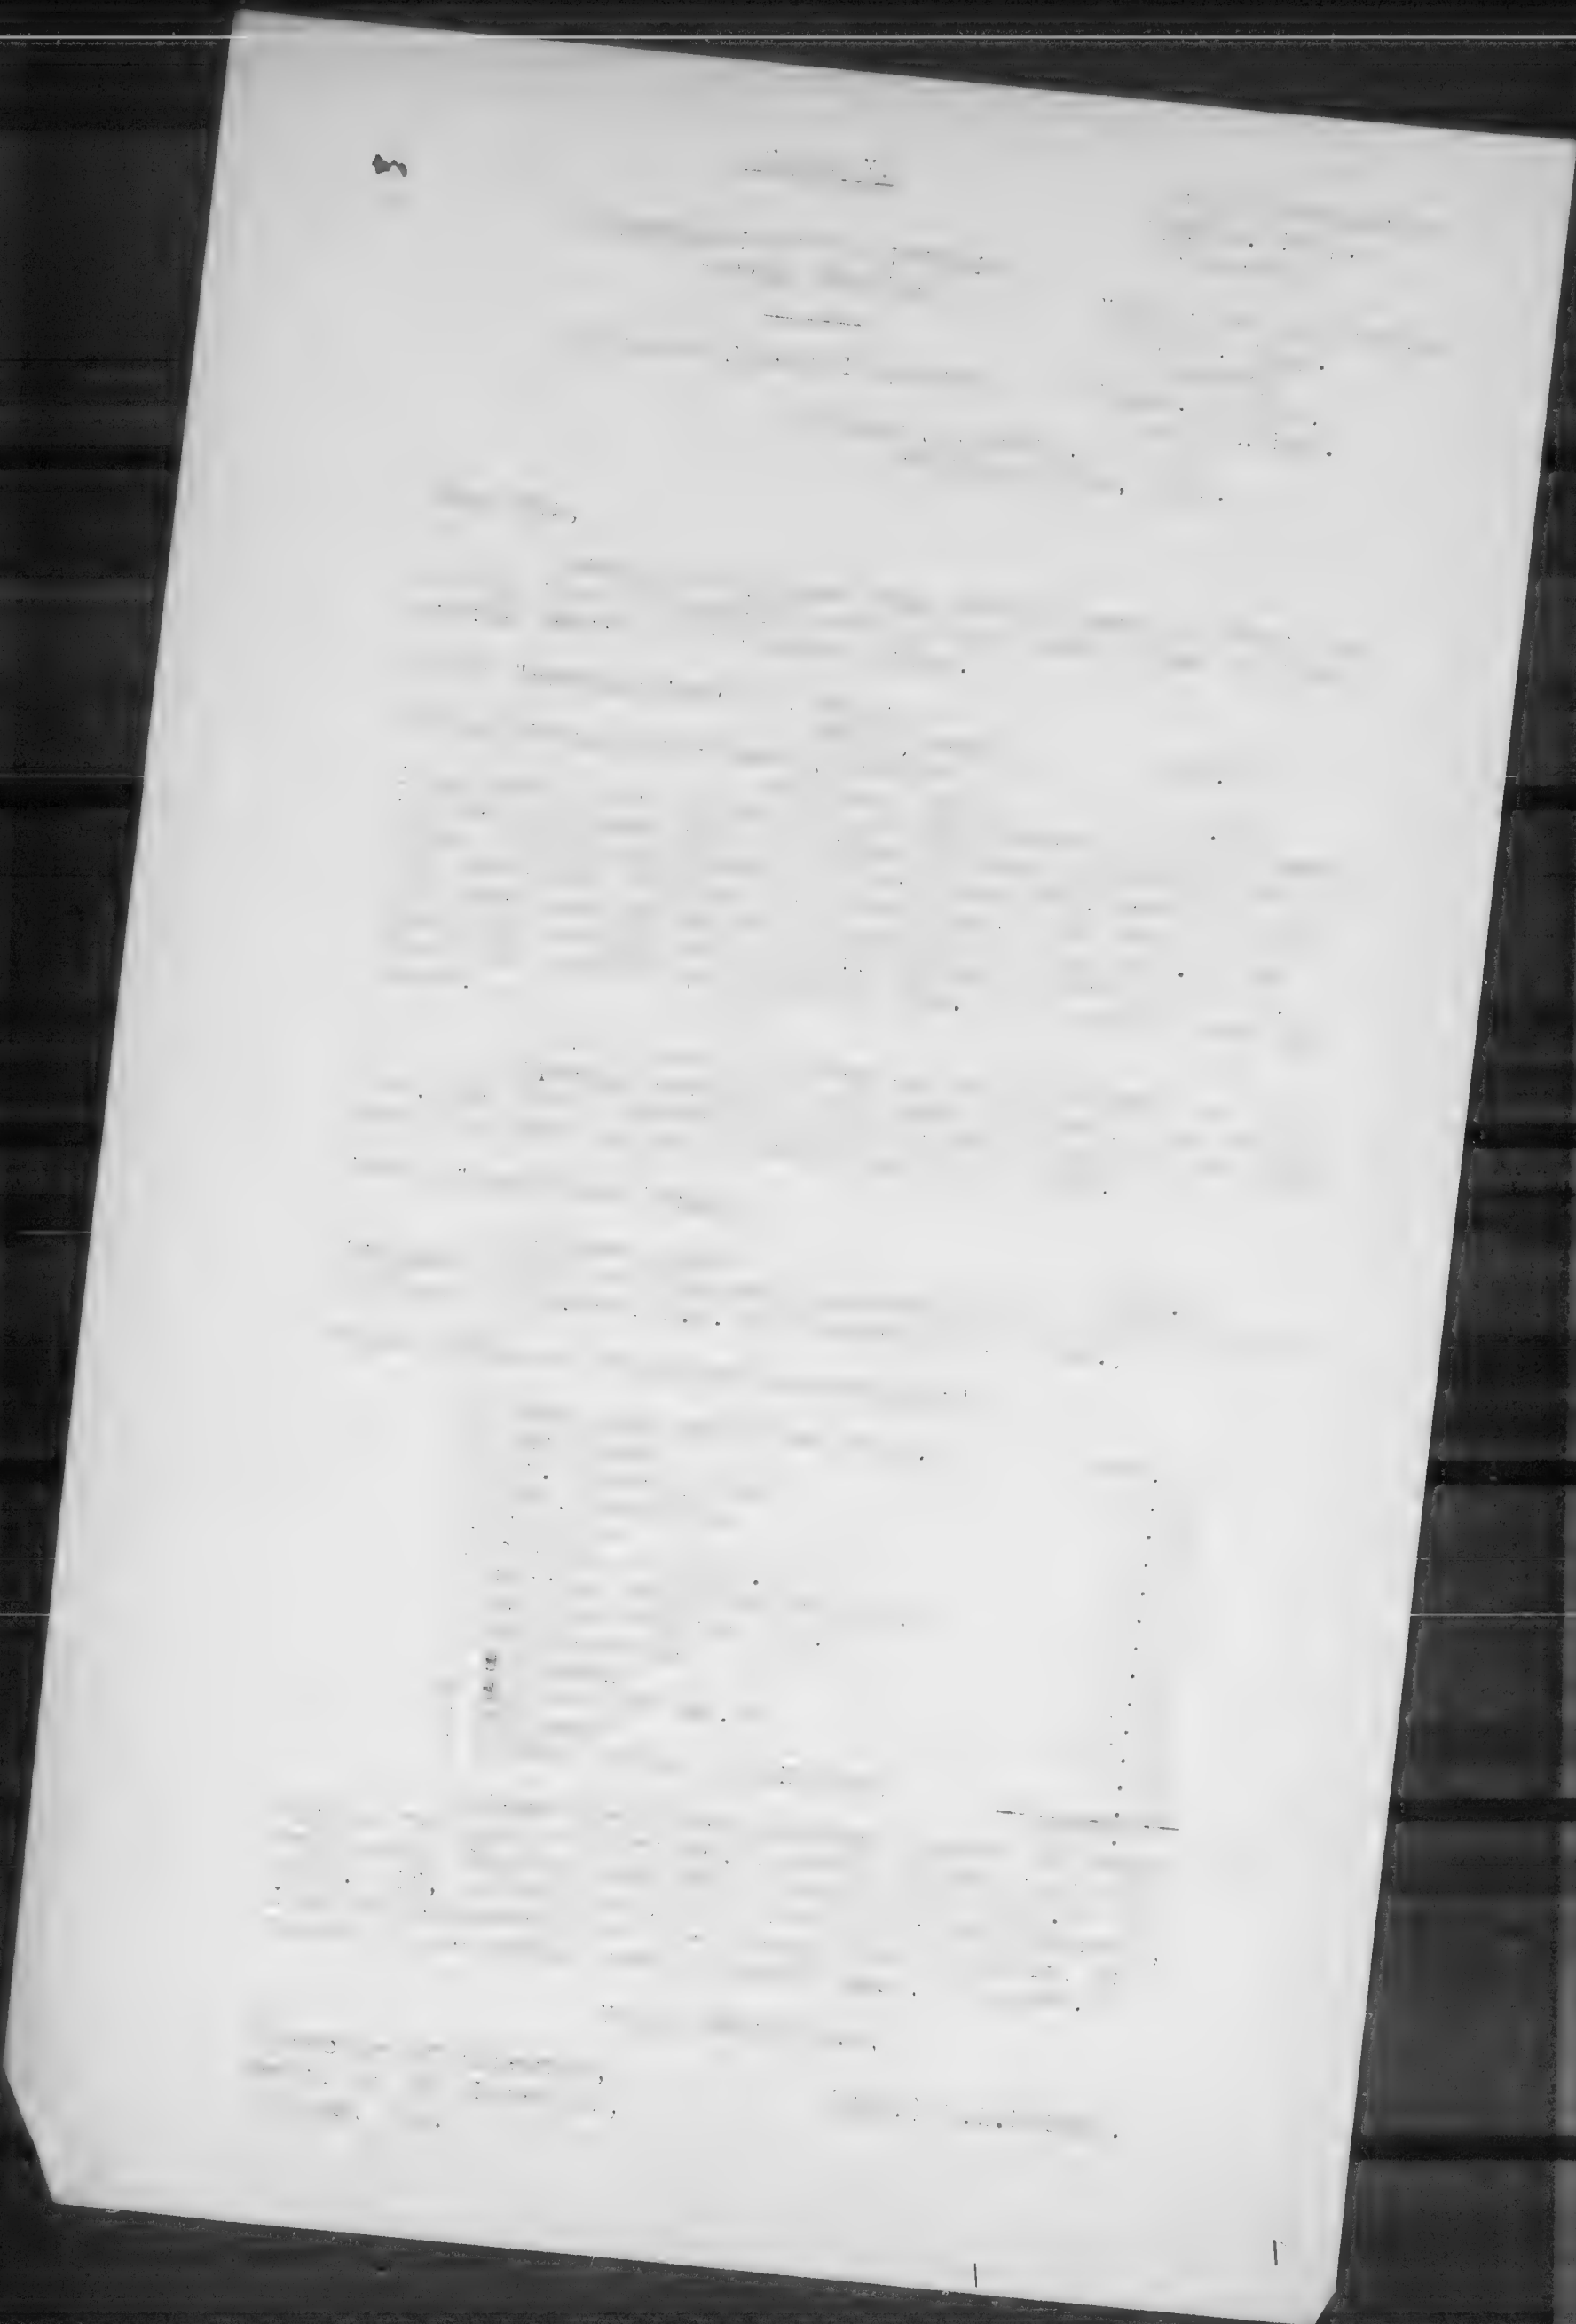

Unless the above items are covered by Forms 100 not on file at this office, it would appear that the Provincial Service have been charged with \$679.54 too much. If on checking, you find this to be the case, I would recommend that they be allowed a credit, proportioned on the amount they actually paid, to cover.

Yours faithfully,

Director of Forestry,  
Dept. of the Interior,  
Ottawa, Ont.

Memorandum:

The Deputy Minister.

With reference to Forest Service Moveable Equipment taken over by the province of Alberta, as will be shown on the attached summary of correspondence passing between this department and Premier Brownlee and officials of the Department of Lands and Mines, Edmonton, the province was advised that this equipment would be turned over to them on the understanding that it would be paid for on the basis of 25% of the original cost, provided the province took over all of the equipment, or 40% of the original cost if a selection were made. The province have had the use of the equipment since the season of 1930.

A conference was held in the office of the Assistant Deputy Minister, Department of the Interior, at Ottawa, on the 18th May, 1931, at which Mr. John Harvie, representing the province of Alberta, was present. The various provincial representatives were advised in terms of the preceding paragraph. Mr. Harvie agreed that a joint inventory of the equipment should be prepared by Provincial and Dominion Forestry officials and submitted to the Department of the Interior in order that the province might be billed for the same. An inventory was prepared by our Forestry officials and furnished to the province. Later, this inventory was revised, at the request of Mr. Harvie, and furnished showing the equipment distributed according to Reserves. According to this inventory 25% of the original cost (\$127,132.91) was shown to be \$31,783.23.

On the 28th January, 1932, a letter was written to Premier Brownlee reviewing the situation with respect to the Forestry Moveable Equipment, and requesting him to write expressing acceptance of the terms, and stating that payment might be deferred until a mutually satisfactory date was agreed upon.

Premier Brownlee replied that he would endeavour in the course of the next few days to discuss the subject matter with the Minister of Lands and Mines and let the department have a reply. Since then several letters have been written Premier Brownlee and officers of the Department of Lands and Mines in this connection, but no reply has been received.

In addition to the Forest Service equipment, certain equipment belonging to other branches of the department was taken over by the province, as shown on the attached statement.

It is suggested that we advise the Department of Finance of these various transactions and request them to obtain from the province a settlement, or secure an acknowledgment of the indebtedness, with a view to making a settlement later on.

Respectfully submitted,

Assistant Secretary.

Memorandum:

The Deputy Minister.

With reference to Forest Service Moveable Equipment taken over by the province of Alberta, as will be shown on the attached summary of correspondence passing between this department and Premier Brownlee and officials of the Department of Lands and Mines, Edmonton, the province was advised that this equipment would be turned over to them on the understanding that it would be paid for on the basis of 25% of the original cost, provided the province took over all of the equipment, or 40% of the original cost if a selection were made. The province have had the use of the equipment since the season of 1930.

A conference was held in the office of the Assistant Deputy Minister, Department of the Interior, at Ottawa, on the 18th May, 1931, at which Mr. John Harvie, representing the province of Alberta, was present. The various provincial representatives were advised in terms of the preceding paragraph. Mr. Harvie agreed that a joint inventory of the equipment should be prepared by Provincial and Dominion Forestry officials and submitted to the Department of the Interior in order that the province might be billed for the same. An inventory was prepared by our Forestry officials and furnished to the province. Later, this inventory was revised, at the request of Mr. Harvie, and furnished showing the equipment distributed according to Reserves. According to this inventory, 25% of the original cost (\$127,132.91) was shown to be \$31,783.23.

On the 28th January, 1932, a letter was written to Premier Brownlee reviewing the situation with respect to the Forestry Moveable Equipment, and requesting him to write expressing acceptance of the terms, and stating that payment might be deferred until a mutually satisfactory date was agreed upon.

Premier Brownlee replied that he would endeavour in the course of the next few days to discuss the subject matter with the Minister of Lands and Mines and let the department have a reply. Since then several letters have been written Premier Brownlee and officers of the Department of Lands and Mines in this connection, but no reply has been received.

In addition to the Forest Service equipment, certain equipment belonging to other branches of the department was taken over by the province, as shown on the attached statement.

It is suggested that we advise the Department of Finance of these various transactions and request to obtain from the province a settlement, or secure acknowledgment of the indebtedness, with a view to a settlement later on.

Respectfully submitted,

Assistant Secretary.

Dear Mr. Sellar,-

When the Natural Resources were transferred to the Western Provinces, the Federal Forest Service were left with a large quantity of surplus equipment on hand in each province. This was loaned to the provinces for a period of one or two months so that they might carry on the work of operating the Forest Reserves, etc., without interruption, on the understanding that the equipment turned over to them would be paid for later on, at a valuation to be agreed upon.

Negotiations were carried on with all four provinces over a considerable period, and we finally entered into an agreement with British Columbia to purchase the equipment being used by them at 25% of its original cost. Payment of this amount has been made. Manitoba and Saskatchewan provinces have accepted the equipment at a valuation somewhat less than 25% of its original cost, but payment is to be delayed until a mutually satisfactory date can be agreed upon.

We have also furnished Alberta with lists of surplus equipment available for them, and offered it at 25% of the original cost. They have actually been using this equipment since the transfer of the resources but up to the present we have been unable to secure an official acceptance of the equipment on any basis, or an acknowledgment of their indebtedness, although repeated efforts have been made in this direction.

Watson Sellar, Esq.,  
Comptroller of the Treasury,  
Finance Department,  
Ottawa.

-2-

I am enclosing a statement showing the value of equipment turned over to the province of Alberta on the basis of twenty-five per cent of its original cost, and would be pleased if you would take such steps as are necessary to obtain a settlement from the province, or secure an acknowledgment of the indebtedness with a view to making settlement later on.

Yours very truly,

*N. B. Lawrence*

Deputy Minister.

You will observe that all of this is moveable equipment and does not include any permanent improvements such as telephone lines, buildings, etc. I understand that these accounts are still under discussion between the Department of Interior and the proper Provincial authorities.

Naturally it is desirable that this account be cleared up, and this letter is to ask if it would be agreeable to you when we are next making a payment to the Province of Alberta on some account that the amount of \$33,617.23 be deducted for that purpose.

With best regards, I am,

Yours very truly,

Comptroller of the Treasury.

Dear Mr. Sellar,

I have to acknowledge receipt of your letter of the 16th instant, and note your advice.

With respect to the amount owing to the Dominion Government for movable equipment taken over by the Province with the transfer of the natural resources, we would prefer to make payment by cheque in the usual manner rather than having the amount deducted from any moneys payable to the Province by your Government. I have referred the matter to the Lands and Mines Department, and upon receipt of their advice, I will advise you further.

Dear Mr. Sellar,-

Kindly refer to my letter of the 13th May, last, and subsequent correspondence in connection with the claims held by this department against the province of Alberta, covering the sale of certain equipment following the transfer of the Natural Resources.

I find that on the 20th June, 1933, the Representative of the Treasury of this department received a cheque for 697.62 for certain strata bags, sample bottles, and trays. The receipt of this money was not reported to this office nor to the Branch concerned, which accounts for the amount being included in the statement furnished you in May last. I am, therefore, enclosing a corrected statement, having been assured by our Accounts Branch that no other payments have been received from the province in this connection.

The Deputy Minister.

Kindly refer to your memorandum herewith of the 10th instant, enclosing a copy of one from the Deputy Provincial Treasurer of Alberta, stating that a payment of \$739.25 had been made in June, 1932, covering certain sample bags, bottles, and trays from the former Supervisory Mining Engineer's Office, Calgary.

After a search through the records of the Accounts Branch it was found that on the 20th June, 1932, a cheque for \$697.62 was received and deposited to Casual Revenue. It would appear, however, that neither Mr. Hume nor this office was advised of the receipt of the money. The difference between the amount of our account, \$739.25, and the amount remitted, \$697.62, viz: \$41.63, represents the sale price of the Leitz Microscope which originally cost \$166.50 and which we had offered to the province at 25% of the original cost. The Accounts Branch report that they have no record of any further payments from the province in connection with property disposed of to them.

The corrected statement of the amount owing this department is enclosed, with a draft letter to Mr. Watson Bellar.

Respectfully submitted,

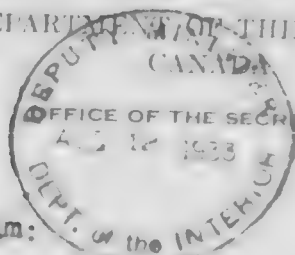

Assistant Secretary.

### COMPILING ANNUAL INVENTORY STATEMENT

---

1. Annual inventory is required from each officer responsible to Head Office for property in his charge, or in charge of officers under his supervision. This inventory should be prepared from an actual check of the property.
2. Inventory as of November 30 is due at Head Office not later than December 15. However, the inventory may also be compiled as of any date between September 30 and November 30, preferably September 30 and October 31, and may be submitted to Head Office as soon thereafter as it is complete.
3. Compile in two divisions, namely (a) office equipment such as filing cabinets, desks, chairs, drafting instruments, books, typewriters, etc., (b) all other equipment.

Survey instruments should appear in the second division. The cost price of articles in the first division need not be shown, but in the second division (main inventory) the original cost should be indicated in the column provided. In any case where, because of lack of previous record, it is impossible to ascertain the exact cost, a close estimate will be sufficient.

4. Submit the *first division in triplicate* and the *second division in quadruplicate*.
5. (a) Departmental number, manufacturer's serial number, type of machine, number of cylinders, horse-power, etc., when applicable, should be shown for all fire-pumps, automobiles, speeders, typewriters or other articles of a similar class. Do not include in inventory articles previously reported on Form 103 as lost, worn out, etc., or any articles listed on Form 103 accompanying the inventory.

(b) Be sure to show the last Head Office number of Forms 100 and 103 recorded by you at the date of inventory. If any Forms 100 and 103 have been submitted to Head Office and not returned, reference should be made to the same in a letter sent with the inventory. Itemize a sufficient number of the articles listed on such forms to enable Head Office to trace them. This also includes any Form 100 for articles that may be included in disbursement statement of the current month.

### COMPILING ANNUAL INVENTORY STATEMENT

---

1. Annual inventory is required from each officer responsible to Head Office for property in his charge, or in charge of officers under his supervision. This inventory should be prepared from an actual check of the property.
2. Inventory as of November 30 is due at Head Office not later than December 15. However, the inventory may also be compiled as of any date between September 30 and November 30, preferably September 30 and October 31, and may be submitted to Head Office as soon thereafter as it is complete.
3. Compile in two divisions, namely (a) office equipment such as filing cabinets, desks, chairs, drafting instruments, books, typewriters, etc., (b) all other equipment.

Survey instruments should appear in the second division. The cost price of articles in the first division need not be shown, but in the second division (main inventory) the original cost should be indicated in the column provided. In any case where, because of lack of previous record, it is impossible to ascertain the exact cost, a close estimate will be sufficient.
4. Submit the *first division in triplicate* and the *second division in quadruplicate*.
5. (a) Departmental number, manufacturer's serial number, type of machine, number of cylinders, horse-power, etc., when applicable, should be shown for all fire-pumps, automobiles, speeders, typewriters or other articles of a similar class. Do not include in inventory articles previously reported on Form 103 as lost, worn out, etc., or any articles listed on Form 103 accompanying the inventory.

(b) Be sure to show the last Head Office number of Forms 100 and 103 recorded by you at the date of inventory. If any Forms 100 and 103 have been submitted to Head Office and not returned, reference should be made to the same in a letter sent with the inventory. Itemize a sufficient number of the articles listed on such forms to enable Head Office to trace them. This also includes any Form 100 for articles that may be included in disbursement statement of the current month.

Memorandum:

Mr. E. H. Finlayson. (5527000-Alta. Equip.)

I am in receipt of your memorandum of the 30th ultimo, enclosing a copy of lists of equipment recently taken over by the Provincial Forester of Alberta. We have transferred to the Department of Public Works the list of office furniture referred to.

Before making a recommendation to the Deputy Minister respecting the Forestry equipment taken over I should be glad if you would let me have the original, or a copy, of Mr. Blefgen's letter in which he states that they are willing to pay for this on the same basis as the other Forestry equipment in Alberta, namely, 25% of its original value. I may say that up to the present we have had no official letter from the province of Alberta agreeing to our valuation.

Assistant Secretary.

Copy sent Mr. Winlayson.

December 7th, 1933.

Dear Mr. Fuller,-

On the 6th June, 1931, we forwarded to you lists showing Dominion Lands office equipment taken over by the province of Alberta. At that time we retained for the continuing Forest Service certain office furniture which was stored on the Cooking Lake Reserve. We have recently been advised by Mr. T. F. Hefgen, Provincial Forester, of Edmonton, Alberta, that they have taken over this equipment and have removed it to Edmonton. Mr. Hefgen further suggested that his service would be quite willing to pay for all of the equipment on the same basis as other Forestry equipment in Alberta, viz: twenty-five percent of its original value. I may say that this was the basis of settlement which we proposed to the province in connection with the surplus movable Forestry equipment which they took over from our department.

Enclosed is a list of the office furniture taken over. You will note that in this instance we have not made an estimate of the value of the same.

Yours very truly,

Deputy Minister.

December 9, 1933.

Sir,

Referring to your letter of November 3rd, regarding the Cooking Lake property, would you please let me have a copy of the letter received from Mr. Kieffer in which he states that the property taken by him from Cooking Lake might be added to the list of the property from the other reserves to be transferred to the province, and that he would be glad to set it provided that it was transferred on the same basis as the rest. This information has been asked for by the Secretary who points out that it is required before making a recommendation to the Deputy Minister inasmuch as up to the present time we have no official letter from the province of Alberta agreeing to our valuation of 25 per cent.

Yours faithfully,

for Director of Forestry.

Memorandum:

December 13, 1933

Mr. W. C. Hume.

(55-7000-11ta. Equip.)

With further reference to your letter of the 2nd instant, addressed to Mr. Ashfield, enquiring about equipment transferred to the western provinces since October, 1930, I am attaching hereto a statement showing the equipment of this department transferred to the province of Alberta, amounting to \$30,919.61. The second item on this statement, covering moveable equipment of the Forest Service, has been the subject of correspondence with the Premier of Alberta and Edmonton, but no final agreement was reached as to the total amount which the province was to pay. The amount of \$31,783.23, shown in the statement, is the amount which this department thinks should be paid.

In addition to the equipment shown on this statement, the province of Alberta also took over office furniture, etc., formerly belonging to the Dominion Lands Administration, as follows:-

|                     |                    |
|---------------------|--------------------|
| Lethbridge.....     | 4,906.28           |
| Calgary.....        | 2,158.50           |
| Edmonton.....       | 7,743.20           |
| Peace River.....    | 2,016.63           |
| Grande Prairie..... | 2,332.51           |
|                     | <u>\$19,157.11</u> |

The Department of Public Works were advised of this and were to complete arrangements with the province for the payment of the same. So far as I know, no payment has as yet been made by the province.

On the 30th November last I received a memorandum from the Forest Service stating that the Provincial Forester at Edmonton had taken over forestry equipment from Cooking Lake Reserve, the original cost of which was \$444.30, and that he had agreed to pay for this 25% of its original value. This arrangement has not yet been approved by the Deputy Minister, but it should be taken into consideration in connection with any statement which you may be preparing for use with the Commission to be appointed.

Assistant Secretary.

## DEPARTMENT OF PUBLIC WORKS, CANADA

CHIEF ARCHITECT'S OFFICE

REF.

OTTAWA, December 12, 1933.

FROM: The Chief Architect,  
Department of Public Works.

TO: The Deputy Minister,  
Department of the Interior.

I wish to acknowledge the receipt of your communication of the 7th instant, enclosing a further list of equipment retained by your Department for the Forest Service at Cooking Lake Reserve and which has since been taken over by the Provincial Government of Alberta. Although you do not say so, I gather from your letter that it is the wish of your Department that this Department complete arrangements for the disposal of this equipment to the Provincial Government. Your letter states that you have recently been advised by Mr. T. F. Bleffren, Provincial Forester, Edmonton, Alberta, that his Service would be quite willing to pay for all the equipment on the same basis as other Forestry equipment in Alberta, viz: 25% of its original value.

If our presumption is correct, may I say that as yet this Department has not been paid for any of the equipment listed in previous correspondence with your Department in connection with the transfer of the Natural Resources to the Province of Alberta and in view of this we do not wish to add to that list. In any case the fact that this equipment has been in storage for some time places the question of its disposal in an entirely different position to that of the furniture taken over at the time of the transfer, and in the opinion of this Department should be dealt with either by your Department or by the Government Contracts Supervision Committee.

Forest Service

Edmonton, Alberta,

November 1, 1933.

H. L. Holman, Esq.,  
District Forest Inspector,  
10 Customs Building,  
Calgary, Alberta.

Dear Sir:

I wish to acknowledge receipt of your letter of the 26th ultimo regarding property taken over from the Cooking Lake Forest.

We understand that this Forest is to be transferred to the Dominion Militia Department and in view of this I wish to say that we are quite agreeable that the transfer of non-expendable property be taken up with your Head Office with a view to placing it on the same basis as that formerly transferred.

Regarding the expendable items, I wish to say that the following is the present status of this equipment:

|   |  |
|---|--|
| Creosoted plants for culverts -         | Left at Cooking Lake.  |
| Paint - Two 1-gallon cans               | - Shipped to Brazeau   |
| Lumber - 20 pieces 2 x 4 - 12           | - Brought to the Forestry storehouse in the basement of this building. |
| 6 rolls of Wire Netting                 | - 4 rolls in basement and 2 rolls shipped to Coalspur.                 |
| 5 Gasoline drums<br>(Not in good order) | - Stored in basement.  |
| 1 Iron Gate                             | - Shipped to Coalspur.   |

There were some dishes brought in. They are now in our storehouse. However, half of the total number were left and were of no value.

Regarding your statement that there were several hundred dollars worth of expendable property, I wish to say that the above were the only items of expendable property that we took from Cooking Lake, and as we made a very thorough search and took everything of value there is a possibility that the Parks Branch may have taken some of these articles or, as you suggest, some of them may have been stolen.

Trusting that this is the information you require,

(Signed) Yours faithfully,  
T. F. Blefgen,  
Director of Forestry.

In the year 1887, the Forest Service was organized, and since that time it has been the duty of the Service to protect the public lands of the United States from the destruction of fire, and to preserve the same for the benefit of the people. The Service has been successful in its efforts, and the public lands are now in a better condition than when it was first organized. Dear Mr. Fuller,-

I beg to acknowledge the receipt of your letter of the 12th ultimo, respecting some office equipment formerly used by our forest service on Cooking Lake Reserve, which has been taken over by the province of Alberta. I note that the province has not yet paid for the office furniture and equipment taken over in 1930 and that, under these circumstances, you prefer that we should deal with the transfer of the equipment recently taken over.

I might say, for your information, that we have not collected anything from the province for forestry equipment transferred, but we have opened an account with them and payment is to be delayed until a mutually satisfactory date can be agreed upon.

As the equipment referred to in our previous letter was purchased by your department, possibly you could give us an estimate of its cost; if so, we shall endeavour to obtain settlement by the province.

Yours very truly,

*H. H. ...*  
Deputy Minister.

Dear Mr. Christie,-

January 17th, 1934.

I have been advised by the Deputy Minister that you are returning to Ottawa by way of Edmonton and will stop over and see Mr. Harvie, Deputy Minister of Lands about, among other things, the amount owing this department in connection with equipment taken over at the time of the transfer of the natural resources to the province, and I have been requested to furnish you with a statement in regard to the same.

I am enclosing a statement showing the amounts owing by the province in this connection up to the 14th August last. No payments have been made since that date but certain additional forestry equipment formerly located on Cooking Lake Forest Reserve has been taken over by Mr. Pfeiffer, Provincial Forester, as follows:-

Office furniture; present value (estimated by Public Works Department)..... 197.00  
Field equipment; original cost 444.20;  
25% of value..... 111.05  
Together with some miscellaneous equipment consisting of lumber, wire, etc., of which I have not been advised of the estimated value.

For your information, I may state that when the discussions originally took place with the provinces respecting the sale and purchase of equipment taken over by them on the transfer of the resources, the agreement arrived at was that the provinces should pay 40% of the original cost if they made a selection, and 25% of the original cost if all of the equipment were taken.

Your obedient servant,

F. L. Christie, Esq.,  
c/o Mr. J. Norquay,  
Agent of Dominion Lands,  
Edmonton, Alberta.

Memorandum:

The Deputy Minister.

Acting on your instructions of the 12th ultimo, I furnished Mr. F.L. Christie, of this department, with a statement of the Forestry equipment transferred to the province of Alberta, so that he might endeavour to secure some settlement of the account while in Edmonton. Attached, for your information, is a letter from Mr. Christie, the last paragraph of which seems to sum the situation up fairly, and is as follows:-

"My impression is that unless you can bring some pressure to bear, or unless the matter can be taken up during the Commission's sitting with regard to the Natural Resources of Alberta, the account will remain unpaid.

A perusal of the file would seem to indicate that Mr. Harvie - whether acting on his own initiative or under instructions, I do not know - is deliberately trying to evade a settlement of this question. I think that it might be well to have our Minister again write to Premier Brownlee or the provincial department concerned.

Respectfully submitted,

Assistant Secretary.

Memorandum: J.M. Bailey, Esq.,  
Assistant Secretary,  
Department of the Interior.

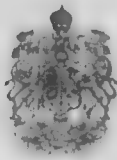

With reference to your letter to me of the 17th January, addressed in care of Mr. Norquay, Agent of Dominion Lands at Edmonton, relative to the account for equipment transferred to the Provincial Government amounting to \$32,919.61, Mr. Turner has asked me to reply to you direct.

After the receipt and perusal of your letter I called on Mr. Harvie, Deputy Minister of Lands and Mines, and discussed the account with him item by item. He gave me the impression during the conversation that he was dissatisfied with the equipment even at the price the Province had agreed to pay for it, and intimated that it was his intention to have the matter taken up by Mr. Brownlee with our Minister while the conference of Provincial Premiers was going on here in Ottawa.

He informed me that he would on that afternoon, January 18th forward a statement with regard to it to be in care of Mr. Norquay, and I waited in Mr. Norquay's office until after 5 o'clock on that date, and until after Mr. Brownlee's arrival. He did not have any business and as he could not secure an appointment with Mr. Harvie until a further three days I was unable to stay longer here.

My impression is that unless you can bring some pressure to bear, or unless the matter can be taken up during the Commission's sitting with regard to the natural resources of Alberta, the account will remain unpaid.

I herewith return your memorandum of the 3rd instant covering a report received from Mr. F. L. Christie on his interview with the Provincial authorities, Edmonton, regarding the payment of the account for Forestry equipment turned over to the Province at the time of the transfer of the resources.

As it is apparent that this Department is unable to secure a settlement from the Province, I wish you would prepare for my signature a letter referring the whole matter to the Comptroller of the Treasury for attention.

Memorandum:

February 10th, 1934.

The Deputy Minister.

On the 30th November the Forest Service advised me that Mr. T. F. Blefgen, Provincial Forester at Edmonton, had communicated with Mr. Holman, at Calgary, to say that the provincial authorities had removed from our building on Cooking Lake Forest Reserve the equipment which had been reserved for the Dominion Forest Service, and had given as a reason that vandals were taking the opportunity to remove the equipment.

Mr. Blefgen further stated that his Service would be quite willing to have this equipment transferred to them on the same basis as other forestry equipment in Alberta. Since then I have been endeavouring to secure the value of this equipment, and now attach a list of the same, together with its value. The original cost of the Forestry equipment taken was \$459.20 of which would be \$114.80. In addition, there was a quantity of office furniture which was valued by the Department of Public Works at \$197.00, making a total of \$311.80.

I would recommend that the Government Salvage Officer be requested to cover this sale by a Salvage Minute. Attached hereto is a draft letter to be used for this purpose.

Respectfully submitted,

In addition to this there was a quantity of office furniture which was valued by the Department of Public Works at 197.00, making a total of \$311.80, which should be added to the previous statement.
